ACKNOWLEDGEMENT

Many people have contributed to the escalation of this thesis with either their personal or technical support, for which I wish to express my gratefulness.

This thesis would not have been possible without the initial motivation, as well as the ongoing support and encouragement of my supervisor Dr. P. Thambidurai, Professor and the then Head of the Department of Computer Science & Engineering and Information Technology, Pondicherry Engineering College, Puducherry, whose expertise, understanding and patience added extensively to my teaching and research experience. I would express my deepest gratitude to him for his personal attention and encouragement that carried me throughout this research and for his insights and suggestions that helped to shape my research skills.

My sincere thanks to Dr. T. G. Palanivelu, Principal, Pondicherry Engineering College and Dr. K. Ethirajulu, Former Principal, Pondicherry Engineering College for their encouragement and permission to carry out the research work.

I am grateful to my doctoral committee members Dr. S. Kuppuswami, Professor of Computer Science and Director of Studies, Educational Innovations and Rural Reconstruction, Pondicherry University and Dr. K. M. Tamizhmani, Professor, Department of Mathematics, Pondicherry University, Puducherry for providing valuable comments and constructive suggestions towards improving the quality of this research.

I would also like to thank Dr. K. Vivekanandan, Professor and Head of Department, Teaching, Non-Teaching and other Supporting Staff of the Department of Computer Science & Engineering and Information Technology for providing a peaceful working environment.

I am very much thankful to Prof. D. Govindarajulu for his valuable suggestions to bring out this thesis. I would like to thank all my Fellow Researchers
who have been instrumental in getting me across the finish line. Their continuous encouragement and support throughout this research has helped in the successful completion of this thesis.

Last, but definitely not the least, I wish to express my gratitude to my parents Shri. N. Egambaram and Smt. E. Kuppulakshmi, wife Smt. I. Rani, daughter E. I. Varsha and son I. Rishvanth for their unlimited love and support during every stage of my research period. Without them, this thesis would never have come into existence.

E. ILAVARASAN
