PREFACE

This thesis considers estimation of parameters in latent variables models. Except Chapter 1, which provides Introduction and Summary of the thesis, all the remaining four chapters and appendix contain original results.

This thesis has not been submitted to any other University for award of a degree.

First and foremost I wish to express my deep sense of gratitude to my research supervisor Professor (Rtd.) B. K. Kale, Department of Statistics, University of Poona for his valuable guidance throughout the course of this work. His understanding, pertinacity and constant encouragement have been a major inspiration for this undertaking.

I am grateful to Professor J. V. Deshpande, former Head of the Department of Statistics and Professor S. R. Paranjape, Head of the Department of Statistics, University of Poona and the authorities of University of Poona for providing me all the research facilities.

I am thankful to Professor S. R. Adke and Professor S. Kunte for many useful discussions with them. Thanks are also due to my friends in the Department of Statistics, University of Poona for their critical comments and helps in several ways, throughout my stay in Pune.

I am also grateful to Rev. Fr. Philip Njarlakat, Principal, St.
Thomas College, Pala, Dr. T.V. Thomas, Department of English, and Mr. K. K. Jose and other colleagues in the Department of Statistics, St. Thomas College, Pala for their valuable help.

Thanks are also due to the Council of Scientific and Industrial Research, New Delhi for their financial support through the award of Junior/Senior Research Fellowship.

I am indebted to the members of my family for their constant moral support, understanding and patience during the course of this work.

Finally I wish to thank Mrs. A.V. Sabne for diligent typing of the manuscript.

Sebastian George
