

## INDEX IN DETAIL

Chapter No.	Description	Page no.
1	<b>INTRODUCTION</b>	1-9
	1.1 Introduction of Hearing	1
	1.2 Definition of Hearing Impairment	1
	1.3 Introduction of Auditory Neuropathy	2
	1.3.1 Underlying Physiology	2
	1.4 Prevalence Rate	5
	1.5 Related Etiologies	5
	1.5.1 Risk factors for ANSD from the neonatal history	6
	1.5.2 Associated Anatomical Anomalies	6
	1.5.3 Other Anatomical Brain Anomalies	7
	1.6 Need for the Study	7
	1.7 Objective of the Study	8
	1.8 Hypotheses of the Study	8
2	<b>REVIEW OF LITERATURE</b>	10-28
	2.1 Clinical & Audiological Profile:	10
	2.2 Related Etiologies	16
	2.3 Prevalence Rate	23
3	<b>METHODS</b>	29-36
	3.1 Methodology	29

		3.1.1	Resarch Design	29
		3.1.2	Area of Study	29
		3.1.3	Sampling Method:	29
		3.1.4	Time Period	30
	3.2	Selection Criteria		30
		3.2.1	Inclusion Criteria	30
		3.2.2	Exclusion Criteria	30
	3.3	Test Instrument		31
		3.3.1	Details of Test Instrument	31
		3.3.2	Audiological Testing & Test Protocol	35
	3.4	Scheme of Data Analysis		36
		3.4.1	Independent Variables	36
		3.4.2	Dependent Variables	36
	3.5	Statistics		36
	3.6	Ethical Considerations		36
4	<b>RESULTS &amp; DISCUSSIONS</b>			37-59
	4.1	Prevalence Rate Of Auditory Neuropathy Spectrum Disorder		38
	4.2	Etiologies Associated With ANSD		40
	4.3	Comparison of Audiological Findings of Children With ANSD		42
		4.3.1	Difference in Between the Audiological Profile Of	42

			Children With ANSD & Children With SNHL	
		4.3.2	Sex Difference in Between the Audiological Profile of Children With ANSD & Children With SNHL	47
		4.3.3	Difference in Between the Audiological Profile of Male Children With ANSD &SNHL	51
		4.3.4	Difference In Between The Audiological Profile of Female Children With ANSD & Children With SNHL	54
5	<b>SUMMARY</b>			60-65
		5.1.1	Findings of the Current Research Study	62
		5.1.2	Points to be Considered	63
	5.2	<b>Conclusion</b>		64
	5.3	<b>Limitation</b>		65
	5.4	<b>Research Needs</b>		65
•	<b>References</b>			66-79
•	<b>Appendix</b>			80-105
