Acknowledgements

First and foremost I owe my deepest gratitude to my guide, Dr. N. B. Bhosle, Emeritus Scientist, National Institute of Oceanography, for giving me the opportunity to work at NIO and supporting me during last eight years in my work with ideas, valuable knowledge and all other assistance in order to being able to perform the research which finally ended up in this thesis. Sir, you were always very supportive with both ideas and experimental work.

I am deeply grateful to my FRC committee members Dr. C. G. Naik (VC’s nominee) for reviewing the six monthly reports and constructive comments, Professor Dr. P. V. Desai (Dean Life Sciences, GU) for stressing on the manuscripts and Professor Dr. S. Bhosle (Head of Microbiology Department, GU) for forwarding my PhD applications, six monthly reports for review, conducting presentations and all other help she extended throughout the thesis work. I would also like to thank Dr. Garg (co-guide), Mrs. Saraswati, Ana, other staff and friends in microbiology department for their help.

I am grateful to Dr. S. R. Shetye (Director) & Dr. E. Desa (ex-director) of NIO, Goa, India for extending the research facilities, support and encouragement.

It is a pleasure to thank Mr. A. P. Selvam for the help in operation of GC, GC-MS, IRMS and other equipments during the course of these studies. Special thanks go to Mrs. Anita Garg and Dr. Fraddry Desouza for teaching various laboratory techniques and Mr. Shyam Naik & Ram Meena Murthy for timely help. I warmly thank Dr. Rakhee Khandeparker for her valuable advice and friendly help. I am deeply indebted to my friends Loreta Fernandes, Rosaline, Sangeeta, Dr. Anand Jain, Dr. Monther and Vishwas Khodse for their help.

I owe my most sincere gratitude to Dr. Prasanna Kumar for helping me since my master’s thesis, who extended his hand of help and a place to sit during my last stages of thesis writing & printing. I thank Dr. S. S. S. Sarma for his kind nature and sharing his office during thesis writing. I deeply acknowledge my best friend Dr. Jayu Narvekar for her all time help and love. Upal and Byju I am grateful to both of you for your kindness and help.

I acknowledge the help given by Dr. S.G Dalal, in statistics, Dr. Prakash Babu in OC sample analyses, Dr. Tapasvi and the staff of the NIO library for the procurement of the various research articles, Mr. Mahale and people in DTP section for tracing the figures and printing the documents, workshop staff Mr. Manohar, Luis & Chodankar for the fabrication of glassware and other research articles & binding section people for binding the final CSIR report. I also thank the people in NIO who directly or indirectly have helped me during the thesis work.
I had the pleasure to supervise and work with several students who did their dissertation work in our laboratory: Swaraj, Antoine, Thomas, Saani, Megha, and others, many thanks to all of you.

Part of the thesis work (Chapter 5) was carried out in France (Laboratoire de Microbiologie de Géochimie et d'Ecologie Marines, Centre d'Océanologie de Marseille, France). My warm thanks are due to Dr. Jean Francois Rontani who directed me in the Alkenone research and Dr. Patricia Bonin & Sophie Guasco in helping with microbiology experiments, PCR & DGGE. Their kind support and guidance have been of great value in this study. The other research fellows, scientists and supporting staff from the French lab are greatly acknowledged. Also I like to thank Dany for the help during my stay in France. Thanks are due to Dr. C. Tamburini for the gift of the four bacterial communities of E. huxleyi strain TWP1 (with and without antibiotic treatment) used in this work. The two papers were published from this work for which I would like to acknowledge the anonymous referees for their useful and constructive comments. I want to direct a special thanks to Drs. Nagaraj Sambrani and Ram Reddy for helping me during my stay in France. Further help from Sweety and Sandeep is most valuable.

Financial support was provided by the following sources: Ministry of shipping & surface transport, Government of India (November 2002 to December 2003), "Preliminary exploration of seamount crusts in Indian ocean (DOD) (January 2003 to May 2006), CSIR-HRD, New Delhi for the Senior Research Fellowship (May 2006 to May 2009), French Embassy Fellowship for the PhD registered students (where I was on deputation to France, August 2006 to February 2007). The alkenone work in France was partially supported by grants from the Centre National de la Recherche Scientifique (CNRS) and the Université de la Méditerranée. Also thankful to the European commission for partial financial support under project "Assessing impacts of TBT on different coastal uses". The financial support from all above sources is greatly acknowledged.

Last but not the least; I would like to thank my family whom I love the most: my papa Ramesh and aai Shubhangee for giving birth to me at the first place and supporting me spiritually throughout my life. Although aai you are not there among us now, I can always feel your presence. Didi Rasika you are the best friend I ever had. Babu Suraj being younger to me you took up most of the responsibilities, I am proud of you and my little dear Sangam for understanding me during my traumas. I am touched by the love I got from my little sweetheart Sanu (Saanvi), who allowed me to work and never messed up with my papers or computer. Thank you sanju (Sanjay) for loving my sis, you are very supportive. I also thank my brothers Mrunal, Sarvesh, Vishal, Pramod, Shikumar and Gaurish (late) for their untiring love and support in all times. Taacie and her family thank you very much for your help.

I am indebted to my present family especially Appa, Anna, Lataakka, Moni and Suhas, who are very loving and caring. Finally my loving husband Dr Nagaraj Gowda, I have no words to express my feelings to him. He always stood besides, encouraged me to continue with my research, helped and supported me in every possible way and situation which came along during the thesis work.

The one above all of us, the omnipresent God is thanked infinite times, for answering my prayers for giving me the strength to plod on despite my constitution wanting to give up, thank you so much Dear Lord.
