# TABLE OF CONTENT

## CHAPTER I 10

### INTRODUCTION 10

1.1 Wetlands General Perspectives 10

1.2 Various Definition of Wetlands 12

1.3 Role of Wetlands 16
   1.3.1 Hydrology 16
   1.3.2 Ground Water Recharge 17
   1.3.3 Freshwater Source 19
   1.3.4 Life Support 19
   1.3.5 Landscape position 21
   1.3.6 Soil Saturation and Fiber Content 23
   1.3.7 Climate Control 23
   1.3.8 Biogeochemical Cycling and Storage 23
   1.3.9 Pollution Trapping and Waste Processing 24
   1.3.10 Decomposition 24
   1.3.11 Recreation, Aesthetics, Culture, and Science 24
   1.3.12 Food 25
   1.3.13 Coastal Protection 25
   1.3.14 Economics 25

1.4 Types of Wetlands 25
   1.4.1 Marsh 26
   1.4.2 Riparian Marsh 26
   1.4.3 Swamp 26
   1.4.4 Bog 26
   1.4.5 Fen 26
   1.4.6 Wet Meadow 27

1.5 Wetlands Types based on Landscape Position 27
   1.5.1 Coastal Wetland 27
   1.5.2 Inland Wetlands 27
   1.5.3 Lacustrine Wetlands 27
   1.5.4 Forested Wetlands 28

1.6 Ramsar Convention 28
   1.6.1 Special Feature of the Ramsar Convention 29
   1.6.2 Criteria for Selection of Wetlands of International Importance 29
   1.6.3 National Commitments / Obligations Involved on The Part of Contracting Parties to Ramsar: 30

1.7 Wetlands in India 31
   1.7.1 Status of Wetlands in India 31
   1.7.2 Major National Initiative for Wetland Management in India 32
   1.7.3 Wetlands of international Importance in India 34
   1.7.4 Type wise Estimates of Wetlands in India 38

1.8 Wetland status of Kerala 40
   1.8.1 Major Backwaters/ Estuaries of Kerala 42
1.8.2 Freshwater Lakes of Kerala 43
1.8.3 Mangrove Ecosystems of Kerala 46
1.8.4 Unique Wetland Ecosystems of Kerala 47
1.8.5. Myristica Swamps of Kollam and Thiruvananthapuram Districts 47
1.8.6. Wetlands of International and National importance in Kerala 48

1.9. Problem Statement 50

1.10. Aims and Objectives 51
1.10.1 Aim 51
1.10.2 Objectives of the Research 51
1.10.3 Research Questions 51

1.11. Chapter Construction 52

CHAPTER II 53

REVIEW OF LITERATURE 53

2.1. Evolution of Wetland Study 53
2.1.1. The Wetland Studies till 1950 53
2.1.2. The Wetland Studies between 1950 And 1970 61
2.1.3. Wetland Studies After 1970 69
2.1.4 Wetland Studies During the 90’s 76
2.1.5. Wetland Studies After 2000 82

2.2. Emergence of Different Land Use models in Wetland Studies 91

2.3. Wetland Studies in India 98

2.4. Major Wetland Studies in Kerala 102

2.5. Wetland and Related Environment Protection Laws 105
2.5.1 Major Environment Protection Laws Relating to Wetlands of India 106
2.5.2 Major Environment Protection Laws Relating to Wetlands of Kerala 106

2.6. The Evolution of Classification of Wetlands 107
2.6.1 Classification Pattern, Evolution and Developments in Wetland Study 109
2.6.2. Some Important Wetland Classifications 111
2.6.3. Wetland classification and inventories of India 128

CHAPTER III 133

GEOGRAPHY OF KOLLAM DISTRICT 133

3.1. Kollam General Settings 133

3.2. Administration 133

3.3. Topography 135

3.4. Slope 137

3.5. Drainage 141
3.5.2. Sasthamkotta Kayal 143
3.5.3. Ayiroor 145  
3.5.4. Vamanapuram 145  
3.5.5. Paravoor Kayal 146  
3.5.6. Edava and Nadayara Kayals 146

3.6. Geology 146

3.7. Soil 147

3.8. Climate 152

3.9. Flora and Fauna 154

3.10 Population 156

3.11. Agriculture 160  
3.11.1 Irrigation 165  
3.11.2 Livestock Population 166

3.12. Economic Minerals 166

3.13. Transport 167

3.14. Education 169

3.15 Industry 170

CHAPTER IV 172

THREATS TO WETLANDS OF KOLLAM 172

4.1 Major Threats That Faced by Wetlands of Kollam 172  
4.1.1 Wetland Reclamation for Housing 172  
4.1.2 Industrial and Infrastructural Development 173  
4.1.3 Changing Pattern of Agriculture and Aquaculture 174  
4.1.4 Retting of Coconut Husk 175  
4.1.5 Waste Disposal 175  
4.1.6 Land Use Changes 177  
4.1.7 Hydraulic Interventions 178  
4.1.8 Overexploitation of Resources 178  
4.1.9. Weed Infestation 179

4.2 Agents of Change 181  
4.2.1 Globalization 181  
4.2.2. Demographic Change 181  
4.2.3. Increased real estate boom and Tourism 181

4.3. Problems Faced by Two Ramsar Wetlands of Kollam 182  
4.3.1. Problems Faced by Ashtamudi Kayal 182  
4.3.2. Problems faced by Sasthamkotta Kayal 183

CHAPTER V 185

 METHODOLOGY 185
5.1 The Need for Methodology 185

5.2 Primary Data and Sources 185

5.3 GPS Survey 186
   5.3.1 ArcGIS 9.2 186
   5.3.2 ILWIS 3.5 187

5.4. Preparation of Maps Using ArcGIS 187

5.5. Land Use Maps From Satellite Image 188

5.6 Standardized Precipitation Index (SPI) 188

5.7 Markov Analysis 189
   5.7.1 Perpetration of Map for Markov Analysis 190
   5.7.2 Analyzing Land Use Change Using Markov 190
   5.7.3 Markov Operation 191
   5.7.4 Markov Note 192
   5.7.5 Markov Macro Command 192

5.8 SPSS 9 193

5.9 Preparation of Questionnaire and Socio Economic Survey 193
   5.9.1 Field Visit 193
   5.9.2 First Phase 193
   5.9.3 Second Phase 194
   5.9.4 Third Phase 194
   5.9.5 Fourth Phase 194

CHAPTER VI 195

STATUS OF WETLANDS OF KOLLAM DISTRICT 195

6.1 Rainfall Analysis 195
   6.1.1 Mean Monthly Rainfall 195
   6.1.2 Pre-Monsoon Rainfall 197
   6.1.3 Post-Monsoon Rainfall 197
   6.1.4 Monsoon Rainfall 201
   6.1.5 Standardized Precipitation Index (SPI) Analysis (1975-2010) 201

6.2. Population Dynamics 204
   6.2.1. Labour Status of Kollam 206
   6.2.2. Change in No. of Households 207

6.3 Land Use Dynamics 208
   6.3.1. Agriculture Land Use 208
   6.3.2. Per Capita Availability of Wetlands 211
   6.3.3. Rice Production and Productivity 211

6.4. Land use changes 1973-2004 212
   6.4.1 Wetland Change 1974-2004 217
   6.4.2. Conversion of Paddy in Kollam between 1974 - 2004 217
6.5. Future Land Use – Predictions Based on Markovian Conditional Probability Statistics

6.5.1 The Land Use
6.5.2 Markovian Conditional Probability 1974 -1990 Projected to 2000
6.5.4. Markovian Conditional Probability 2004- 2010 Projected to 2020

6.6 Results of Socio Economic Survey

6.6.1 General Details
6.6.2 Size of House holds
6.6.3. Type of Houses
6.6.4 Ownership of Land
6.6.5. Income
6.6.6. Occupational Status
6.6.7. Place of Occupation
6.6.8. Educational Qualification
6.6.9. Use of Owned Land
6.6.10. Major Crops Cultivated
6.6.11. Main Source of Drinking Water
6.6.12. Leasing of Land
6.6.13. Paddy Cultivation Dynamics
6.6.14. Paddy Cultivation Dynamics
6.6.15. Paddy Conversion Dynamics
6.6.16. The Purpose to Which the Paddy Fields are Converted
6.6.17. Changes in Area under Wetlands
6.6.18. The Reason behind Decrease of Wetland Area
6.6.19. Use of the Kayal And its Surrounding
6.6.20. Quality of Kayal water

CHAPTER VII

SUMMARY AND CONCLUSION

How far the Objectives of the research could be achieved

Limitations of the Study

Suggestions
