Acknowledgements

With immense pleasure of deep sense of gratitude I express my indebtedness to my research director, Prof. Y.L.N.Murthy, Head, Department of organic chemistry and FDW, Andhra University for suggesting the problem and giving me the opportunity to work with him and giving me guidance, encouragement, and kindness during the course of this work. I consider myself fortunate in that it would have been impossible to achieve this goal without his support and care.

I am highly grateful to prof. B.Shyamsundar, Head, Department of chemistry, Acharya Nagarjuna University, Nagarjuna Nagar for making available required laboratory facilities and for allotting the present Research supervisor Prof Y.L.N.Murthy.

I convey my heartiest thanks to Prof. B.Kesavarao chairman, B.O.S and prof. P.V.V Satyanarayana, Department of Chemistry, Acharya Nagarjuna University, Nagarjuna Nagar for their encouragement during my research work.

I am thankful to Dr. Bulusu Sarada Scientist-D, Dr. Tata Narasinga Rao scientist-E, Team leader, Centre for Nano materials International Advanced Research Centre (ARCI), Hyderabad(India), without their support I would not be able to complete this Work. I am really grateful to them.

I am really grateful to Prof.Ramanujachari Kandalam, and Mr. Magdelono Travis, Department of chemistry and biochemistry, Rowan university, New jersey, USA for their valuable suggestions, timely discussions & providing instrumental data.

With mixed feelings of joy and affection, I wish to express my gratitude to my fellow research scholars and co investigators Dr. Rajendra singh, I.V.Kasi Viswanath, and co-scholars E.Nageswara pandit , P.V.S Machi Raju, Diwakar, Govind, Rajak, for their help during the course of these studies.
I could not have undertaken this work but for the kind permission accorded by the commissioner of Higher Education, Hyderabad, and Sri B. Polisu, Principal, Govt. Degree and P.G college for men, Srikakulam.

I would like to express my gratitude to Bulusu Appala Narasimha Murthy, former Head, Dr. T. Siva Rao, Head, and other faculty colleagues B. Sriramulu, D. Satya Prasad, Dr. G. Vayu Kumar, and contact faculty members R. Chandrasekhar, K. Hemalatha, R. Venkateswara Rao, V. V. V. Satyanarayana, of Department of Chemistry, Govt. Degree & P.G college (Men), Srikakulam for his invaluable support and encouragement.

I also extend my thanks to other staff Jagannadham, Smt. Kalavathi Suryanarayana, Smt. Maheswari Koti, Raju, of Department of Chemistry, Govt. Degree PG college (Men), Srikakulam for their invaluable cooperation.

I also extend my thanks to Rural water supply and analysis division [Panchayat Raj], Srikakulam for valuable discussions.

I would like to thank Dr. B. V. R. Tata and Ch. Jagadeeswararao, IGCAR, Kalpakkam (India) for giving me guidance and help at every step of my work.

I also express my gratefulness for the scientists Shri Dr. V. Sankara Sastry, and Mr. V. Srihari of Materials science Division, IGCAR, Kalpakkam (India) for XRD analysis, Mrs. M. Radhika, and Dr. Saroja Saibaba of Physical Metallurgy Division IGCAR, Kalpakkam for their help in providing instrumentation data.

I thank my father Sri T. Suryanarayana for teaching me the meaning of the word "stick-to-ittiveness", to my mother Smt. Venkata Ratnam for all of her support.

My heartful thanks to my wife Smt. Padmavathi Tata for all of her patience and encouragement at every stage in completion of my thesis.
I also extend my heartfelt feelings to my In Laws Sri Rambhatla Nagabhushana Rao and Smt. Vijaya Lakshmi for their encouragement and support in my development.

I am indebted to my sons Mr. uday shankar tata, M.S. Texas university, Arlington (USA), Mr.Sankar Ganesh tata, Software engineer for enriching me in Computing Knowledge.

TATA. KONDALA RAO
