1. INTRODUCTION 1

1.1 OSTEOPOROSIS 1

1.1.1 Prevalence 2
1.1.2 Indian scenario 3
1.1.3 Causes and risk factors 3
1.1.4 Diagnosis 4
1.1.5 Prevention and treatment 5

1.2 PARATHYROID HORMONE 6

1.2.1 Chemical characterization and synthesis 7
1.2.2 Structure/Activity studies of the PTH ligand 9
1.2.3 PTH Receptors and hormone action 10
1.2.4 Structure/Activity relations in PTH and its receptor 12
1.2.5 PTH and therapy of Osteoporosis 14

2. CLONING, EXPRESSION AND PURIFICATION OF rhPTH(1-34) 20

2.1 Introduction 20
2.2 Materials and methods 22

2.2.1 cDNA synthesis and cloning of rhPTH(1-34) 22

2.2.1.1 mRNA isolation from human Parathyroid Adenomas 22
2.2.1.2 cDNA synthesis 22
2.2.1.3 PCR amplification 23
2.2.1.4 Agarose gel electrophoresis 23
2.2.1.5 Isolation of DNA fragment from agarose gel 24
2.2.1.6 Cloning of rhPTH(1-34) 24

2.2.2 Expression of GST fusion protein 26
2.2.3 High density fermentation 28
2.2.4 Cell lysis and fusion protein isolation 28
2.2.5 Cleavage of fusion protein 29
2.2.6 Purification of rhPTH(1-34) by HPLC 30
