CHAPTER I	
Total synthesis of Achaetolide	
Introduction	01-13
Present work	14-20
Experimental procedure	21-37
References	38-40
Spectra	
CHAPTER II	
Section A Total synthesis of Pectinolide A	
Introduction	41-53
Previous approach	54-54
Present work	55-62
Experimental procedure	63-79
References	80-82
Spectra	
Section B Total synthesis of Pectinolide H	
Introduction	83-83
Previous approach	84-84
Present work	85-87
Experimental procedure	88-92
References	93-93
Spectra	
CHAPTER III	
Carbohydrate-pyrrolidine based organocatalyst for enantioselective Michael addition of carbonyls to nitroolefins	
Introduction	94-100
Present work	100-108
Experimental procedure	109-119
References	120-123
Spectra
