ACKNOWLEDGEMENT

It gives me immense pleasure to express a deep sense of gratitude to my doctoral guide, Prof. T. Byragi Reddy, in the Department of Environmental sciences at Andhra University, for suggesting my research work and continuous guidance throughout my course of work. I am very much blessed to have him as a guide. He is friendly, helpful and a very competent advisor. Without his encouragement and support this research work has not been completed.

I also thank Dr. P.S. Rajasekhar, Professor & Head, Department of Environmental Sciences, Andhra University, for his excellent support and according me permission to use the laboratory in the Department.

My whole hearted thanks to Dr. EUB Reddi and Dr. PVV Prasada Rao, Senior Professors and Members of the Doctoral Committee in the Department of Environmental Sciences, Andhra University, for their support and encouragement.

My sincere thanks to Dr. M. Vijaya Chandran, Dr. S. Geeta, Mr. Ch Venkata Ramana and B. Ajay, co-scholars in the department, Mr. Mohan Krishna (Research Scholar, Analytical Chemistry), B. Seshagiri, M. Soni Sarika, Mrs. T.S.D. Radhika, for aiding me in the successful completion of my study.

I would like to thank the chairman of MVR colleges Mr. Muppana Venkata Rao, secretary & correspondent Mr. V. Rama Rao for permitting me to do a part of my research work in their college where I have worked earlier. I would also like to thank Mrs. Seema Kumari Singh (Asst. prof., Dept of Biochemistry), Mr. Arjuna Rao, and my colleagues Mary vijayakumari, Venkatadeepthi for constant support. I also thank the students of 2009 & 2010 batches and lab assistant Mr. T. Srinivas for the help in the field and lab.

My special thanks to Mrs. Nirmala Kumari, Miss. Ramani, Miss. Renuka of Dept. of Chemistry, MVR post graduate college for guiding me while doing chemical analysis.
I thank Dr. Seshamma (Incharge, Central Laboratory of Vizag Steel Plant) and assistants- Mr. Venkateswara Reddy, Mr. Tirumala Rao and Mrs. Eswaramma (Lab Technician) who helped a lot by giving valuable suggestions in handling the equipment.

My love bound thanks are due to my husband, Mr. S.L.N. Jaya Shankar Reddy and my in laws S. Narayana Reddy (late) & S. Yellayamma for his encouragement and help at various stages of my research work. My affection bound thanks are due to my daughter S. Thanu Sree and her new born sister for their hearted support, continuous encouragement and cooperation.

I would be forever grateful to my parents K. Ramana Reddy and Komala Devi for their constant support, encouragement and inspiration given to me in pursuing the doctoral degree. My daughter and husband’s best wishes & help allowed me in successful completion of the research work.

Humble thanks to Analytical Chemistry department of A.U for providing me the adequate laboratory for the smooth conduct of my work B. Ajay and Venkataramana, S. Geetha helped in the calculation part and giving suggestion for the successful completion of the thesis.

K. Syam Sree
