Acknowledgements

I would like to express my sincere gratitude to my supervisor Dr. S. HariPrasad for his valuable and inspiring guidance throughout my research work. There are no adequate words to explain his humanity concern, immense patience, kind advice, sustained encouragement, constant help and support and thought provoking discussions I had with him during this time. I am grateful to him for revealing me the richness of basic synthetic organic chemistry and spectroscopy. It was a great experience to work in his group and learn so many things from him both as an excellent teacher and as a human being. I am grateful to him for introducing me to organosilicon chemistry.

My sincere thanks to Prof. Ravisubrahmanyam, Director, Raman Research Institute, for providing some of the laboratory and spectroscopic facilities.

I would like to express my sincere thanks to Prof. B. K. Sadashiva for giving me an opportunity to work in his group in the field of liquid crystals.

Special and sincere thanks to Prof. Sandeep Kumar for his valuable support, encouragements and introducing me into the field of discotic liquid crystals.

I am thankful to K. Krishnamaraju, Administrative officer, Raman Research Institute for his timely help, constant support and suggestions to pursue my doctoral degree.

Thanks are due to Prof. G. Nagendrappa (retired), Prof. M. A. Pasha; Chairmen: Prof. M. Farooq Ahmad (retired), Prof. K. N. Mahendra, Prof. K. R. Nagasundara; Dr. Shivashankar, Dr. Basappa and all other teaching and office staff of the Department of Chemistry, Bangalore University, for their valuable help during my stay.
My thanks are due to Dr. H. C. Devarajegowda, Department of Physics, Maharaja College, Mysore University, Mysore and his students B. S. Palakshamurthy, Assistant Professor, Department of Physics, Tumkur University and Jeyseelan, Mysore University. Prof. N. S. Begum and her student H. Nagarajaiah, Bangalore University, for their help in the X-ray crystallographic studies.

I would like thank my colleagues of RRI, K. N. Vasudha (for spectral/thermal analysis), K. Radhakrishna (official), A. R. Shashidhara, Siddegowda, A. Dhason, M. Mani, H. Ramsubrahmanyam (Bullet) and Manjunath, Nagaraj, Jacob Rajan, Sridhar for their timely help understandings and support in many ways.

Thanks are due to my research lab colleagues from Central College, Bangalore University, M. A. Venkatesha, G. B. Venkatesha, K. Lokesh, K. Puttaraju, Dr. Madhusudhana Reddy, Jagannath, Somashekar, Sudha, Ramesh and Shyamala for their good understanding and continuous support both in official and non-official matters during my stay at Central College campus, Bangalore.

I am thankful to the Visiting Scientist of RRI, Prof. R. C. Tandel from Maharaja Sayajirao University, Gujarat, India for his well wishing advice and helpful research discussions I had with him.

I thank the former students of RRI, Dr. D. H. Nagaraju, Dr. H. N. Harish Kumar, Dr. Harikrishna Bisoyi, Dr. Satyam Kumar Gupta, Dr. S. Radhika and Post doctoral fellow Dr. M. C. Varia and students from SCM Group Santosh Prasad Gupta, Avinash, Swamy and project students Aravinda, Indu N Swamy, Tanigaivelan. Monika, Keshavamurthy, Lakshmi etc.

My grateful thanks are to RRI Library staff for their instant references and books.
My thanks are due to Srinivasa and Vasanth former project students of NMR Research Centre, Indian Institute of Science, Bangalore for spectral characterization intime.

I gratefully acknowledge my well wishing friends K. Manjaiah, N. Dhananjay, Dr. P. Hareesh Kumar, G. Thippeswamy, A. Ramanjinaiah, C. Srinivasa, P. Srinivasa, R. K. Srinivasa, Suresh (NCL Pune), Dr. Keshavamurthy (CFTRI, Mysore) B. A. Ramanjinaiah and many more.

I will take an opportunity to acknowledge my high school teachers, especially B. V. Nagabhushana, H. R. Prasanna Kumar, S. Lakshminarasappa, Bhuvanendra Kumar who have helped me in many ways and their inspiration to do higher studies.

I am honestly obliged to Raman Research Institute for giving me an opportunity to carry out my doctoral research by providing some of the facilities which are not available in the Bangalore University. I am thankful to the scientific and administrative staff of the institute for their kind co-operation and understandings.

Finally, but not last, I would like express my deep gratitude to my beloved parents, my sisters, my brother, my wife S. Renuka and my lovely son S. Deepak and lovely daughter S. Deeksha for all their patience, support and understandings, encouragements and help throughout my research work. I appreciate their support and belief in me all the way.
