ACKNOWLEDGEMENTS

I owe my deep sense of appreciation and gratitude to my esteemed supervisor Dr. Harbans Singh, Assistant Professor, Department of Education, Himachal Pradesh University, Shimla - 171005, for his wholehearted cooperation, keen interest and constant guidance without which I would not have been able to complete this work.

I shall be failing in my duty if I do not feel indebted to Professor Lokesh Koul, Chairman, Department of Education and Dean, Faculty of Education, Himachal Pradesh University, Shimla, for his invaluable guidance, constant motivation and precious suggestions for the completion of this study.

I express my sincere gratitude to the teaching staff and research scholars of Department of Education, Himachal Pradesh University, Shimla, for their scholarly suggestions and cooperation.

I am indebted to thank all the heads of various Tibetan schools namely TCV Dharamshala, CST Paonta Sahib and CST Shimla, who by rendering their permission made it easy for me to collect data and conduct the experiment.

It would not be fair if I forget to thank all the students of class VII of the above mentioned schools for their cooperation and keen interest in the process of data collection and their active involvement during the conduct of the experiment.
It gives me immense pleasure to extend my deep sense of gratitude to Mr. and Mrs. Deveaux and Madame Denise Compet for their selfless help during the course of my study without which this research work would have remained unaccomplished.

To my uncles, Mr. Sonam Thutop, Mr. Palden Wangchhu, Mr. Tashi Rinchhen and Mr. Chhosje Rapdan, and my brother Tashi Wangyal, who have been a constant source of inspiration and encouragement, I owe all of them a profound sense of gratitude.

Words fail to adequately express my heartfelt thanks to my dear friend Mr. Ngawang Gyaltsen for his moral support, unfailing inspiration and selfless help throughout the research work.

I am thankful to the authors and editors of books, journals, research papers and magazines, whose observations have been helpful to me in conducting the present study.

Last, but not least, I am thankful to my typist who took great trouble of typing the present manuscript very neatly and in time.
