ACKNOWLEDGEMENT

Successful work will have in its backbone the blessings of God the almighty, hence I place my humble salutation and prayers to God for all His pervading grace that sustained throughout the study. An antioxidant rich, nutritive diet is essential for a healthy diabetic life. This work is a humble attempt to throw light on the possibilities of reducing diabetic complications and managing the possible anomalies that may develop in the future by developing an antioxidant rich, nutritious supplementary food.

It gives me utmost ecstasy to express my deep sincere and hearty gratitude to DR.S.CHELLAMMAL, Professor, Agricultural University, Vellaiyani, Thiruvananthapuram for her adroit guidance, vision, expertise, valuable suggestions and sustained encouragement evidenced during the entire course of study and preparation, without which this dissertation work would not have achieved the present depth and style.

I am deeply indebted to Dr Satyanarayanan former director of RRL for allotting his staff, Dr. T. EMILIA ABRAHAM, as my Co-Guide and offering all facilities in the institute for completing the work. I acknowledge my debt of reverential gratitude and owes special thanks from the depth of my heart to Dr. T. Emilia Abraham, Scientist, NATIONAL INSTITUTE OF INTERDISCIPLINARY SCIENCE AND TECHNOLOGY (NIIST), CSIR, Thiruvananthapuram for her motivating, enthusiastic and meticulous effort for the successful execution by providing the infrastructure facilities and amenities in the Chemical Science and Technology Division, of NIIST for doing the biochemical analysis of the study and materializing this work.

I wish to express my gratitude to DR SUDEVE, Statistics Department, for blessings and support in all statistical analysis from data entry to interpretation of results using SPSS. I am extremely grateful to him for the constructive criticism, suggestions and evincing keen interest in bringing out this study to its zenith.

It is a pleasant duty of mine to acknowledge deep sincere gratitude to Dr.MOHANANA NAIR, Director, Indian Institute of Diabetes, Thiruvananthapuram, for his encouragement, constant inspiration, co operation
and good will throughout the study; and owes special thanks to him for allotting the diabetic patients for the study.

I am thankful to the proprietors of the S K Hospital, S.K National Diabetic Center, Edapazhani, Thiruvananthapuram, Lt. Cln. Dr.SANTHOSH SIVAN, Medical Officer and Dr.SIVANKUTTY, Managing Director for granting permission to collect data and enabling maximum number of samples to part take in the study; It is nothing other than their enthusiastic approach and good wishes that brought this study a successful one.

With deep respect, I am indebted to the authorities of Diagnostic Center Dr.AYSHABEEVI, Research officer (Retd), Medical College, Thiruvananthapuram, for allotting lab staff and nurse for data collection, to prevent any loss of work. I thank her for the painstaking work she has done during the data collection period and for their earnest interest they enriched in my academic pursuits.

My heartfelt thanks is to each and every individuals/subject who participated in the study especially during the blood collection and supplementation phase for their whole hearted support and co-operation without which this work will not be realized.

I also record deep gratitude to the librarian and staff of the prestigious institutes from where current literature review was allowed. My special thanks are to Prof.R.R.REDDY and Prof. PAPARAO of Anthropology Department of SV University Thirupathy, Hyderabad.

- British Library, Thiruvananthapuram And E-Journal Facilities
I am grateful to Mr. Harish, Manager-Market Development E.I.D. Parry (India) Ltd – Parry Nutraceuticals Division, Parry House, 5th Chennai Tamil Nadu; for their timely supply of the Spirulina Powder.

I wish to thank my Colleagues and Students of Lourdes Matha Institute of Hotel Management and Catering Technology (LMIHMCT), Thiruvananthapuram, especially the staff and students of the Food and Beverage Production Department for their kind co-operation for evolving different spirulina enriched products during the third phases of the study.

I thank my beloved Teachers - Dr RAHEENA BEGUM, Dr S KAMINI, Mrs. P.K. GRIJADEVI, Dr. R. RADHIKA, Dr. V GRIJA DEVI, Dr. SUSAN J MATHEW, Dr. ELIZABETH VARGHESE, Mrs. ACHAMA MAMMEN; Colleagues and Students of His Highness the Maharajas College for Women, Thiruvananthapuram, for their constant encouragement, timely advice and help in data collection and analysis.

I have special pleasure, love and deepest sense of gratitude to my most affectionate Parents, who were the main source of inspiration and support to me for the successful accomplishment of the study. I express my deepest sense of gratitude to my Husband and Children for their prayers, encouragement, innovative ideas and support rendered. I also thank my In-Laws, Siblings, Relatives and Friends. I would like to put on record and thank one and all who directly and indirectly extended their kind co-operation and support throughout my research work.

Above all, I thank God, the almighty, for his manifold mercies upon me and for giving me strength and wisdom to carry out the study successfully and to reach this important milestone in my academic life.

Ms. Suni Mary Varghese
