and also the Physicians who gave me details of patients to conduct this study and provided required environment and support all through the investigation.

Further, I want to register my special thanks to the non-teaching staff of the Department of Psychology, T.D. College, Jaunpur, U.P. for helping and guiding me in difficulties and for assisting me in many different ways.

I have great regard for them with whom during this work I had interacted. I wish to express my special gratitude to my entire family for their unflinching love and support and providing a loving environment for me; this investigation was certainly impossible without them. They have always been a constant source of encouragement during the period of my research work. I am indebted to my mother for her care and love. She provided me with each and every single thing I needed during my work. She had been a role model for me to follow unconsciously when I was a teenager and has always been one of my best advisors. I extend my deep regards to my brother and Bhabhi for their constant encouragement and love, for showing me the positive angle of life and keeping me relaxed during the hard times.

Very special thanks to my friends and colleagues for their support and assistance in every step of this work. In spite of their hectic schedule, they spared time to chat to keep me cheered up. I admire their persistent and meticulous attitude towards me.

Last but not the least, I thank almighty God for his continuous blessings and inspiration.
