

A C K N O W L E D G E M E N T S

My deepest intellectual indebtedness is to Dr. D.S. Gill, Associate Professor, Department of Chemistry, Himachal Pradesh University, Shimla, under whose benign guidance and scholarship my research project succeeded upto consummation. Without his wise and valuable guidance, this project would not have been successful. His ungrudging help is gratefully acknowledged.

I am grateful to Dr. K.C. Malhotra, Professor and Head of the Department of Chemistry, for providing me all the necessary laboratory facilities.

I am also thankful to my research mates whose cooperation in exchange of views always led to constructive results. I am especially thankful to Mr. J.S. Cheema for the computer analysis of the conductance data.

My sincere thanks are also due to the Council of Scientific and Industrial Research, New Delhi, for a Research Fellowship under a Research Scheme.

SHIMLA
