Acknowledgements

I express my profound gratitude to “Allah” for enabling me to achieve success in the execution of my work.

With proud privilege and my deep sense of gratitude, I express my infinite and inexpressible indebtedness to my guide Dr. Iqrar Ahmad Khan, Department of Chemistry, A.M.U. Aligarh, for his eminent guidance, morale boosting encouragement, undivided attention, sagacious advice, and above all his paternal affection throughout my research work which have made me reach up to this destination.

Words fail to express my deep gratitude, indebtedness and reverence to Prof. Kabir-ud-Din, Emeritus Fellow (U.G.C), a legendary figure and a scientist of his own kind. In spite of his busy schedule, he provided me intellectual guidance and deep concern in making the present study possible. He has been a source of inspiration for me. His commitment to research, punctuality, integrity and probity has made him a role model for me.

I am very grateful to Chairman, for providing me necessary facilities in the Department.

I express my sincere thanks to Dr. Mohd. Akram for his help and valuable suggestions.

Further, I have no words to thank my senior Dr. Umme Salma Siddiqui who sacrificed her valuable time and without her help the present work would have not been completed. She has provided me every possible help in the various stages of my work.

I am highly thankful to my senior lab colleagues, Dr. Andleeb Zehra Naqvi, Dr. Ziya Ahmad Khan, Dr. Mohd. Sajid Ali and Dr. Manorama Panda for their willing help and guidance during different stages of my work.

Loving thanks and best wishes to my seniors and colleagues, Dr. Md. Sayem Alam, Dr. Nahid Parveen, Dr. Neelam Hazoor Zaidi, Dr. Naved Azum, Dr. Suraiya Khatoon, Dr. Mohammad Altaf, Dr. Mohd. Shafi Sheikh, Dr. Riyaj Mohammad, Dr. Abbul Bashar Khan, Dr. Ajmal Koya, Ms. Ahmad Jahan Khanam, Dr. Malik Abdul Rub, Mr. Dileep Kumar, Ms. Kahkashan Anjum, Ms. Nazish Fatma, Ms. Sahar Noori, Ms. Zeenat Aslam, Mr. Zahid Yaseen, Mr. Gaurav Sharma, Mr. Gamal Ahmad, Ms. Sabreena Yusuf and Mr. Adel Ahmad for providing me enthusiastic environment during the progress of this work.
I am thankful to all my friends specially Dr. Shaista Bano, Mrs. Garima Srivastava, Ms. Nausheen and Dr. Malik Abdul Rub for their cooperation and timely help.

My humble gratitude must also be reserved for my father Late Mr. Israr Khan, a role model for me and my mother Mrs. Rehana Begum for being the source of inspiration. They have always stood by my side in all ups and downs of my life. Their blessings, support, encouragement, and caring attitude have really helped me complete this project.

I also owe my thanks to my uncle Dr. Islam Khan and auntie Mrs. Shahna Begum for their motivation and encouragement during my whole academic period.

I express my special thanks to my uncle Mr. Rehan Raza Khan who always supported me and inculcated in me the sense of patience, which undoubtedly was a key factor playing role in the completion of my research work.

I am really fortunate to have my younger brothers, sisters and cousins namely Mohsin, Amir, Arbaz, Safia, Lubna, Samreen, Humaira and Zainab for their unfailing emotional support during the entire period.

I specially mention my sister, Ms. Fiza Khan, who provided me all possible help and co-operation. She has been a source of strong moral support throughout.

I gratefully acknowledge University Grants Commission, New Delhi, for the financial assistance and thanks are due to SAIF (CDRI, Lucknow) for providing $^1$H NMR facilities.

Last, but not the least, I have no appropriate words to convey my thanks to all my teachers, who sculptured and enabled me to achieve what I wish.

(Farah Khan)
