Preface ... ..	(i) to (iv)
List of Tables ... :	(x) to (xii)
List of Appendices...	(xiv) to (xv)
List of Figures ...	(xvi)
CHAPTER ONE	
INTRODUCTION	1-34
1.1	
Origin and evolution of programmed instruction	2
1.1.1	
Psychological antecedents	4
1.1.2	
Educational antecedents	4
1.2	
Nature of programmed instruction.	7
1.3	
Style of programming	12
1.3.1	
Small step	12
1.3.2	
Active participation	13
1.3.3.	
Immediate knowledge of results.	14
1.3.4	
Self-pacing	15
1.4	
Justification of the problem.	15
1.5	
Level of aspiration	17
1.6	
Socio-economic status	24
1.7	
Content of Biology	28
1.8	
The problem of the present study.	29
1.9	
Scope of the study	30
1.10	
Rationale of the present study.	31
1.11	
Objectives of the study.	32
1.12	
Hypotheses	33
1.13	
Delimitations of the	33

		<u>Page</u>
<b>CHAPTER TWO</b>	<b>DEVELOPMENT OF THE PROGRAMME</b>	<b>35-102</b>
2.1	Preparation stage	35
2.2	Selection of the topic	36
2.3	Assumptions about learner's entering behaviour.	38
2.4	Defining objectives in behavioural terms.	39
2.5	Constructing the criterion test.	46
2.5.1	Reliability of the first draft of the criterion test.	54
2.5.2	The second draft of the criterion test.	56
2.5.3	Reliability of the second draft of the criterion test.	59
2.5.4	Validity of the criterion test.	61
2.5.5.	Final draft of the criterion test.	61
2.6	Developing the content outline.	62
2.7	Writing the programme.	66
2.7.1	Selection of programme paradigm.	66
2.7.2	Writing the frames.	67
2.7.3	Structuring of frames.	67
2.7.4	Sequencing of frames.	73
2.8	Editing	75
2.8.1	Editing for content	75
2.8.2	Editing for composition	75
2.8.3	Editing for technique	76
2.9	Validation of the programme	77
2.10	Individual testing	78
2.10.1	Procedure for individual testing.	79

	<u>Page</u>	
2.11	Small group testing	82
2.11.1	Procedure for small group testing.	82
2.11.2	Error rate of the programme	84
2.11.3	Error rate of frame.	85
2.11.4	Programme density	87
2.11.5	The 90/90 standard analysis	89
2.11.6	Sequence progression of small group testing	91
2.12	Preparation of the final draft	92
2.13	Field testing	93
2.13.1	Procedure for field testing	93
2.13.2	Error rate at the field testing, <i>rate</i> .	95
2.13.3	Programme density at field testing stage.	97
2.13.4	Sequence progression	98
2.13.5	External criterion for validation 90/90 standard.	100
2.14	Modified final draft.	102
CHAPTER THREE	TOOLS OF RESEARCH	103- 113
3.1	Socio-economic status scale	103
3.1.1	Scoring of the socio-economic status scale.	106
3.1.2	Reliability of the socio-economic status scale.	107
3.1.3	Validity of the socio-economic status scale.	107
3.2	Level of aspiration tasks	107
3.2.1	Letter cancellation test.	108

	<u>Page</u>
3.2.2	Computation task 109
3.2.3	Digit symbol substitution test. 110
3.2.4	Reliability of the level of aspiration tasks. 111
3.2.5	Validity of the level of aspiration tasks. 112
<b>CHAPTER FOUR</b>	<b>DESIGN OF THE STUDY 114-140</b>
4.1	Methodology 114
4.2	Dimensions and lay out of the design. 116
4.3	Sampling 118
4.4	Administration of socio-economic status scale. 121
4.5	Administration of level of aspiration tasks. 122
4.6	Experimentation 124
4.7	Experimental procedure 131
4.8	Analysis of variance 136
4.8.1	Levels of significance 139
4.9	Analysis of co-variance 139
<b>CHAPTER FIVE</b>	<b>ANALYSIS AND INTERPRETATION OF DATA. 141-162</b>
5.1	Analysis of pre-test and post-test scores. 141
5.2	Analysis of main effects and interaction effects. 147
5.3	Significance of F-ratios 157
5.4	Interpretation of F-ratios 158

<b>CHAPTER SIX</b>	<b>CONCLUSIONS, GENERALIZATIONS AND FURTHER POSSIBILITIES.</b>	<b>163-173</b>
6.1	Initial learning and post learning.	166
6.2	Main effects and interaction effects.	167
6.2.1	Interaction effects.	170
6.3	Limitations of the findings	172
6.4	Further possibilities	172
	<b>BIBLIOGRAPHY</b>	<b>174-187</b>
