ACKNOWLEDGEMENTS

The work described in this thesis has been carried out in the Department of Biochemistry, University of Kerala, Kariavattom Campus. I take this opportunity to express immense gratitude to Dr. A. Helen, my supervising guide for her supervision, healthy criticism and constant support throughout the course of this work.

My sincere acknowledgement to Professor and Head, Prof. (Dr.) T. Rajamohan (Member of Syndicate, University of Kerala) for providing necessary facility for the completion of this thesis.

I express profound gratitude to Prof. (Dr.) P.R. Sudhakaran, former head of this department, for giving me necessary infrastructural facilities, valuable suggestions and encouragement for carrying out this work.

My sincere acknowledgement to the faculty of this department: Prof. Annie Abraham; Prof. Muraleedhara Kurup; Dr. M. Indira, Reader; Dr. S. Mini, Reader and Dr. Arun Rauf, Lecturer as well as the non-faculty staff: Mr. Dileep Kumar V, Librarian; Mr. S. Abdul Majeed, Librarian; Administrative officers Mrs. Omanakumari NT and Mrs. Jubeira Beevi (Retd.) and Mr. Sathyasenan M and Mr. Subramaniyam Chettiyar.

I am obliged to Dr. Suja Mary Koshy, Veterinary doctor and members of the animal house especially Mr. S. Alexander for helping me with the animal experiments.

My deepest acknowledgements to Mrs. Sherin, Research scholar, Department of Chemistry for helping me with plant component isolation. My genuine acknowledgements to Scientists, Dr. Luxmi Varma and Dr. C.H. Suersh, Regional Research Laboratory for helping me with NMR experiments. My gratitude to Dr. Arun Gopan, Development Centre for Biotechnology, Taipei for helping me with ELISA experiments.

My sincere acknowledgements to Dr. Girija, Pathologist and Mr. Jayakumar of Dr. Girija’s laboratory, Attingal for lending a hand with histopathological interpretation.

I am indebted to my friends Ms. Sandhya V.P and Ms. Nithya R.S for their encouragement. My sincere acknowledgements to Mrs. Sowmya Soman and Mrs. Manju C.S for helping me with PCR experiments.

My heart felt acknowledgements to my labmates Mr. Ratheesh, Mrs. Kavitha S. Kumar, Mrs. Sindu G., Mrs. Shobha Bhaskar, Mrs. Kripa Krishnan, Mrs. Shyni GL and Ms. Salini V. for their support. My gratitude also goes to Mrs. Manju Devi, Binu S., Sowmya S.J., Rooban and Dr. Sindu Kumari B (Chemistry) for the help rendered by them. My acknowledgements to friends at this department Mrs. Preetha PP, Mrs. Bhagya DP, Dr. Viji Sameer, Dr. Kiran MS, Mrs. Chithranjali, Ms. Swathy S.S, Mrs. Seema Panicker, Mr. Renju Gopal, Mr. Cibin T, Mrs. Sangeetha GS, Ms. Chinu Shacko and Ms. Raji V for their timely help.

I am grateful to Mr. Shibu K.V and Mr. Unni of Minitek Computers, Opp. MG University, Kottayam for helping me print this thesis.

I am immensely obliged to my husband Comrade P.K. Biju for his support and encouragement. I am grateful to Mrs. Rejiya Manoj and her family for their constant support. My sincere gratitude to my mother Mrs. Sujatha Vijayan, my father Mr. V. Vijayan, my brother V. Vigil, my in-laws and my grand parents for their blessings.
