I think if any of us honestly reflects on who we are, how we got here, what we think, we might do well and so forth, we discover a debt to others that spans written history. The work of some unknown persons makes our lives easier everyday. I believe it’s appropriate to acknowledge all of these unknown people, but it is also necessary to acknowledge those people we know have directly shaped our lives and our work.

It gives me immense pleasure to extend my heartfelt salutations and deepest sense of gratitude to my supervisor Dr. Rishi K.
