ACKNOWLEDGEMENT

This, yet another milestone in my life has been reached with the help of kind blessings of the Almighty and untiring efforts of my well wishers. Even the best calligraphy can not sufficiently express my gratitude to those who with such good grace gave a bucketful of strength to me in the completion of the present work.

It was my proud privilege to have been associated with and remain under the constant vigilance of Prof. Rama Mitra, M.S., D.G.O., Professor & Head of the Department of Obstetrics & Gynaecology, M.L.B. Medical College, Jhansi, throughout the period of my working on this thesis. The joy and experience of working under her guidance is really something out of this world. Her invaluable suggestions, constructive criticisms, meticulous attention to details and 'never to be matched' expertise have been primarily, if not singularly, responsible for presentation of this work in its present form. She has been a constant source of encouragement and guidance in moments of my despair and it is virtually impossible to express in words my deep sense of indebtedness and profound gratitude to her.

It was still more a matter of proud to have worked under Dr. (Mrs.) Sanjaya Sharma, M.D., Lecturer in Obstetrics
and Gynaecology, M.L.B. Medical College, Jhansi. She has her own subtle way of getting the best out of her candidates. Her exemplary dedication, punctuality, unfathomed knowledge and experience shall remain a constant source of inspiration in my life. I take this opportunity to express my sincere acknowledgements to her.

I am grateful and thankful to Dr. J.P. Singh, M.Sc., Ph.D., Reader & Head, Department of Biochemistry, M.L.B. Medical College, Jhansi for his exhilarating encouragement and exhaustive support.

I am indebted to Dr. (Mrs.) Mridula Kapoor, M.S., Reader in Obstetrics & Gynaecology, M.L.B. Medical College, Jhansi, whose humanitarian attitude and helpful nature has cast an indelible impression over the canvas of my mind.

I extend my hearty thankfulness to Dr. (Mrs.) Usha Agarwal, Reader in Obstetrics & Gynaecology, M.L.B. Medical College, Jhansi, whose gracious encouragement and guidance is associated with this humble venture.

I am highly obliged to Dr. (Mrs.) Sushila Kharkwal, M.S., Lecturer in Obstetrics & Gynaecology, M.L.B. Medical College, Jhansi for her great support and helpful suggestions from time to time.
I am also grateful to Dr. (Mrs.) Sunita Arora, M.S., Reader, Department of Obstetrics and Gynaecology, M.L.B. Medical College, Jhansi for her constant encouragement and suggestions during the study.

I have no words to express my gratitude and indebtedness to my brother, Dr. Nimal Chandra Prajapati, M.D., Department of Paediatrics, M.L.B. Medical College, Jhansi for the keen interest, guidance, encouragement and affection during the term of this work.

It is my genuine responsibility to acknowledge here with great indebtedness, Dr. J.N. Sinha, M.D., Reader, Department of Pharmacology, K.G. Medical College, Lucknow for his generous help in providing the reagents for this study.
I will not forget the benignity of Mr. Anil Kumar, Demonstrator, Department of Biochemistry, M.L.B. Medical College, Jhansi, to whom I am thankful for his co-operation and guidance which was available throughout the period of study at the cost of his personal inconveniences.

I owe all my career as a student to my parents, brothers, sister and in-laws. Their constant blessings, encouragement, moral support and facilities provided, can never be ignored. The extension of their helpful hand is beyond all limit and expectations. I am proud of them and bow my head as a mark of respect and love.

At this moment of glory and award I humbly accept that a lot of credit also goes to my husband Dr. Sarvpriya, M.D., Preventive and Social Medicine, Department of P.S.M., University College of Medical Sciences, Delhi, whose affection, patience and sacrifice has made all this worth.

This voyage was a success due to kind co-operation of the patients and their husbands who have formed the material of this study. I shall remain indebted to them for ever.
I also express my hearty thanks to my colleagues in M.L.B. Medical College, Jhansi and well wishers and friends for their moral support, encouragement and help.

It would be an injustice if I fail to thank Mr. Vishan Lal, Librarian, Central Library and his staff members who were always ready to extend their help during the work of this thesis.

I am also thankful to Shri Kanhaiya Lal, for his meticulous care and painstaking labour in preparing a neat type script of the present work.

Dated : 31st August, 1983

Rama Devi Prajapati
