ACKNOWLEDGEMENT

Praise to the Almighty God, who guided me towards the fruitful completion of this doctoral thesis.

No words of praise and gratitude can match the magnitude of the continuous support given to me by my guide Dr. S. Arockiasamy, Reader, St. Xavier's College of Education, Palayamkottai for producing this thesis. From the very beginning of this research to the time of its completion, he was a constant source of inspiration and encouragement. He guided me to view this study more as a noble mission rather than as a mere academic venture. His characteristic humanistic concern for mitigating the problems of the disadvantaged learners, naturally, got reflected in the high quality of his guidance.

I thank from the depth of my heart Rev. Dr. S. Sebastian S.J., Principal and all members of the staff of St. Xavier's College of Education, Palayamkottai for having given me the opportunity to do this research in this esteemed institution and all their assistance for the successful completion.

I acknowledge the co-operation and timely help extended by Mr. S. Justine, Librarian, St. Xavier's College of Education, Palayamkottai.

I thank Mr. Victor, Lecturer in Computer Science, St. Xavier's College, Palayamkottai for assisting me in analyzing the data. I also thank Siva Computers, Palayamkottai for the neat execution of this doctoral dissertation.

My profound thanks are due to all the headmasters, teachers, friends and the ultimate respondents of all the institutions for their earnest cooperation in data collection.

With deep sense of love, I acknowledge the innumerable acts of my better-half Mrs. Amuthavalli Kumaresan and my kids K. Suba and K. Navin, which have helped me immensely in completion of this dissertation work.

K. S. Kumaresan
