ACKNOWLEDGEMENT

I express my deep sense of gratitude to my Research Supervisor Dr. S. Parameshwara Bhatta, Professor and Chairman, Department of Mathematics, Mangalore University, who introduced me to this field of research and supervised my research work. I am extremely indebted to him for all the help he rendered during my research work and for his tremendous patience, timely help and invaluable guidance throughout my research work.

I am extremely grateful to Prof. Daniel Wulbert, University of California, San Diego, who was a Nehru-Fulbright Scholar in the Department of Mathematics, Mangalore University during the last phase of my research work. His constructive suggestions have helped me to look into some topological aspects of problems in the area of my research work.

My sincere thanks are due to Prof. Juliet Britto, the former Chairperson of the Department of Mathematics, my teachers, non-teaching staff, fellow researchers and friends for their warm support during my stay in the Department.

I genuinely express my gratitude to the Council of Scientific and Industrial Research, New Delhi, for providing financial assistance under the Research Fellowship Scheme (JRF & SRF) and Mangalore University for providing facilities during the period of my research work.
