

ACKNOWLEDGEMENTS

I take this opportunity to express my heartfelt gratitude to my esteemed teacher and guide **Dr. N. Udupa**, Professor & Principal, College of Pharmaceutical Sciences, Manipal, for his guidance, valuable suggestions and great perseverance during each phase of this study, which greatly eased the task of completing this thesis. I thank him with all my heart for giving me an opportunity to conduct this research work at Manipal.

I express my heartfelt thanks and gratitude to Dr. P. Umadevi, Head, Department of Radiobiology, Kasturba Medical College, Manipal, and Dr. A.G. Appu Rao, Head, Department of Protein Chemistry and Technology, CFTRI, Mysore for providing the necessary experimental facilities for carrying out the present work. My sincere thanks to Dr. Nalini K., Department of Clinical Biochemistry and Nutrition for her help in carrying out analysis part of this project.

I thank Department of Biotechnology, Ministry of Science and Technology, New Delhi and M/s Macleods Pharmaceuticals, Mumbai for the financial assistance towards this research work.

I thank all the teaching and non-teaching staff of College of Pharmaceutical Sciences, Manipal for their co-operation during my study.

I thank my all my dear friends and colleagues both at my workplace and outside for their constructive criticism, boundless enthusiasm and undeterred support at all stages of this work.

Finally, I thank my mother and my wife for their love, encouragement and support without which this study could have been in the realms of unreality.

A thesis of this magnitude, although can be claimed to be the work of an individual but without the help of others. A number of people have helped me in this and at the end I would like to once again thank all of you.

Dinesh Shenoy B.
