ACKNOWLEDGEMENTS

I express my sincere gratitude to Prof R K Yaji, the supervisor of my thesis, for his guidance, support and encouragement. I wish to thank the faculty of the Department of Civil Engineering, KREC for their help and co-operation during this research work.

I am grateful to Dr N M Raju, the Director, National Institute of Rock Mechanics who had given full support and freedom to carry out extensive field investigations during the course of this study. He had also provided institutional facilities to complete this work.

Dr B Singh, the former Director of the Central Mining Research Station, provided me an opportunity and encouragement to initiate work on blasting research. I am grateful to him.

I wish to express my sincere appreciation of the assistance and co-operation extended to me by my colleagues Mr H S Venkatesh, Mr A Rajan Babu, Mr F P Shende, Mr A I Theresraj and R Balachander.

Mr J Chattopadhyaya, Mr A Srikant, Mr N Sethumadhavan, Mr Sridhar Chaudhary, Mr K Narendra Reddy and Mr Jay Aglawe spared their time to go through some of the chapters of my thesis. I am thankful to them for their editorial corrections.

I thank Mr Sripad Naik and Mr Y L Visweswaraiah for their help in using computer software and to Mr Govinda Setty for the library support.

The author is grateful to the following persons who had completely or partly seen the manuscript of the thesis and gave valuable comments and suggestions. They are:

- Mr Andrew Scott, JKMRC, Australia
- Dr K S Sarma, JKRMC, Australia
- Dr Finn Ouchterlony of Swedish Rock Engineering Institute
- Dr J L Jethwa, Scientist, CMRI, Nagpur Branch
- Prof Y V Rao, Department of Mining Engineering, KREC, Surathkal
- Dr M V M S Rao, Scientist, NGRI, Hyderabad
- Dr Jyothi Bhasu, IDL Industries Limited, Bangalore
- Mr V Kishore Kumar, Sua Explosives Limited, Bangalore

I am also thankful to my former colleagues of the Central Mining Research Station for their co-operation and fruitful discussions.

I would also like to express my appreciation of the support and assistance extended by various mining organisations during the course of this study. The interactions with mining engineers from the mining and explosives industry had led to various methods and techniques discussed in the thesis. I wish to keep on record my indebtedness to them.

Last but not least, I thank my wife, Indira and my sons, Anwesh and Ashish for their understanding and support.
