Acknowledgments

All praises be to GOD the cherisher and sustainer of the universe, who bestowed upon me enough guidance benevolence to carry out this work.

First and foremost, I would like to express my deep sense of gratitude to my Ph.D supervisor, Dr. Tabreiz Ahmad Khan, Associate Professor, Department of Botany, Aligarh Muslim University, Aligarh, India. I am thankful to him for recognizing my abilities and firm faith in me. He poured on me the enthusiasm for learning and tackling unfavorable conditions. I am amazed how he could have read my mind and was always ready with a solution of any kind of problem. I have learned a lot of human qualities from him and I will always be grateful to him for this rewarding experience of working with him. He has shown me the path and lightened it for me through their useful suggestions, through discussion and interpretation of results. He introduced me to the subject and his learned guidance and support at every step helped me in completion of this study. His in-depth knowledge, meticulous attention to details, constant encouragement and lively criticism of this work done proved invaluable. I sincerely acknowledge that I have learnt the importance of keeping one self constantly updated and abreast of in the field.

I express my deepest gratitude to Professor Mohammad Anis, Chairman, Department of Botany, Aligarh Muslim University, Aligarh, India for providing me the experimental facilities for this work and continues encouragement and to Prof. Irshad Mahmood, Prof. Mansoor Ahmad Siddiqui, Dr. Hisamuddin, Dr. Abrar Ahmad Khan, Prof. Naveen Ahmad Khan and all academic and non-academic staff of the Department of Botany, Aligarh Muslim University, Aligarh for their constant support and help.

During the course of this work, I visited various places and came in touch with academicians, scientists and technical people. I learnt many things, apart from my area of research from them. It is impossible for me to list them. I pay them my sincere thanks.

I express my deepest gratitude to Dr. Sayeed Ahmad, Associate Professor, for providing experimental facilities at Department of Pharmacognosy and Phytochemistry, Faculty of Pharmacy, Hamdard University, New Delhi, India for helping me in Forskolin measurements.

I would like to convey my thanks to the members of our Department of Botany, my research lab mates, Mucksood Ahamad Ganaie, Javed Ahmad Lone, Safiuddin, Dr. Vipin
Kumar, Dr. Miraj, Dr. Sangeeta Yadav, Dr. Rose Rizivi, Zehra Khan, Dr. Rahat Nazar, Farah Rahaman, Bhawana Sharma, Neelu Singh, Kavita Parihar, Geetesh Beghel, Bushra Rahaman, Neha Phathak, Subha Alam, Rizwan and other friends.

My sincere thanks are also due to my seniors Dr. Mohd. Shaikul Ashraf and Dr. Tanveer Azam for their enlightening comments and suggestions during this work.

I also wish to express my sincere thanks to all editors, publishers and their honorable referees, who have published our research papers.

The financial assistance from University Grants Commission (UGC), New Delhi, India in the form of University Fellowship is gratefully acknowledged.

This work would have not been possible without the constant support and encouragement of Mother-in-law, Father-in-law, Sister-in-law, Brother-in-law and relatives and well-wishers throughout. I am really at the loss of words to express my obligation to my family of in-laws and parents who have supported me all through and allowed me to work smoothly. This thesis owes most to them.

Lastly, I am in dearth of proper words to express my abounding feelings for my Mother-in-law (Late Smt. Shakuntala Devi) and my husband, Dr. Rajesh Kumar, Assistant Professor of Physics, Guru Gobind Singh Indraprastha University, New Delhi who have been a source of inspiration to me and my lovely daughter Miss. Palak Shwaraj for their understanding and cooperation shown during this study. I miss very much my Mother-in-law (Late Smt. Shakuntala Devi) who is no more by my side to share my moment of joy. I dedicate this thesis to my beloved family and to the scared memory of my mother-in-law.

(Shweta Sharma)
