Acknowledgements

Proclaim! And thy lord is most bountiful
He who taught the use of pen
Taught man that which he knew not!
(Surah Alaq: 3-5, Al-Quran)

This is probably the most difficult part of this work to write, because printed words fail to express the depth of feelings hidden behind them and convey the actual extent of influence other’s cast on one’s work or life. Before I proceed to mention at least a few special persons without whose support, co-operation and contribution, this work have never come to fruition, let me express my deepest faith in Almighty Allah, the Omnipotent, the Omnipresent for it is indeed His blessings which provided me enough zeal to complete this work.

I would like to express gratitude to my Supervisor Dr. (Mrs.) Saltanat Parveen, Assistant Professor, Department of Zoology, Aligarh Muslim University, Aligarh; she has been a constant source of strength and inspiration to me throughout the execution of this study. Her valuable suggestions added to the output of the research inspired me to have a better grip over my research field. Without her keen interest, priceless supervision care and concern, it would not have been possible for me to complete this thesis. Her invaluable help support and teaching shall remain the guidance force for the rest of my life.

I would fail in my duty if I do not acknowledge Prof. Asif Ali Khan, Ex. Chairman, Department of Zoology and Ex. Dean Faculty of Life Science, Aligarh Muslim University, Aligarh for his guidance, constructive criticism, keen interest and helpful advice throughout the course of study.

I am indebted to Prof. Irfan Ahmad, Chairman, Department of Zoology for providing necessary laboratory facilities.
I would like to thank all my teachers of Department of Zoology AMU Aligarh especially Prof. Iqbal Pervez, Prof. Mukhtar Ahmad Khan, Dr. Mohammad Afzal for their affectionate support and guidance.

I am also thankful to Dr. Zakir Ali Ansari, Senior Scientist NIO, Goa for his valuable suggestions and guidance provided during the course of this investigation. His patience and perseverance have helped me a lot while dealing with experimental problems.

Words fail to express my feelings of deep gratitude and indebtedness to my beloved husband Mr. Azam Siddiqui for his advice, and valuable suggestions from beginning to the compilation of this work. It is his love, care and inspiration that have been instrumental in overcoming the complexities at every step of this work.

I am extremely indebted to acknowledge the help and cooperation rendered by my laboratory colleagues Miss Uzma Ahmad and Dr. Altaf Hussain Ganai for having confidence in my abilities and giving me immense encouragement and improvisation while conducting my research work.

From the core of my heart, special thanks go to my seniors, Dr. Shazia Ansari and Dr. Hesham Reda Abdul Mola, Assistant Professor, NIOC Egypt for their selfless help during my research.

My special thanks are also due to my loving father in law Mr. Shabbir Ahmad Siddiqui who always encouraged and guided me to independence never trying to limit my aspiration. His prayer helped me to gain this success.

I am indebted to my brothers Syed Naseer, Syed Mubasshir, Danish Saleem, Sameer Siddiqui, Arshad Siddiqui, Shahid Siddiqui and Syed Badruddin, whose great efforts have placed me in present position. I will be failing in my duty if I do not thank my sisters Tasmia Mubasshir, Farhat Danish and Sakeena Naaz for their moral support and encouragement during each and every moment of my research.

I feel pride and privilege for my loving father Mr. Syed Mohammad A. Ahmad Kabir and my beloved mother Shahzad Rana for their everlasting support, affection,
prayers and forbearance without which it would have been impossible for me to accomplish
the task of completing this work. They lit the flame of learning in me. I recall those
emotional moments seeing spontaneous tears coming out of the eyes of mother and
Abdullah when I used to leave for Aligarh. I know, the completion of this work will bring
a glitter of pride in their eyes.

I shall always remain obliged to Dr. Rashid Tanveer for his patience and support
shown to me in my day to day queries.

My sincere gratitude goes to Seemab Zehra, Nuzhat Parveen, Uzma, Divya,
Sadaf, Shazia, Zeba, Benazir, Maryam, Swapnil and Sayema for their kind
couragement during the course of study.

I would like to pay my humble homage to my beloved late grandfather Mr. S. Ali
Kabir and Dr. Imdad Imam and my late grandmother Akthar Jahan whose love and
affection has been a source of great inspiration all the time and they deserve love and
thanks.

It is my privilege to mention my deep sense of reverence to Mr. Ali Syeed and Mr.
Abrar Imam for their advice and suggestion.

Last but not the least I am exceedingly thankful and obliged to my nephew Mr.
Tabish Siddiqui for his concern and support.

Habeeba Ahmad Kabir
