LIST OF RESEARCH PUBLICATIONS AND PAPERS PRESENTED

1. Simultaneous determination of titanium and molybdenum in alloy steels using derivative spectrophotometry in neutral micellar medium

2. Simultaneous determination of titanium and molybdenum in steel samples using derivative spectrophotometry in neutral micellar medium

4. “Diacetylmonoxime salicyloylhydrazone as an analytical reagent for the spectrophotometric determination of vanadium” presented at the 22nd conference of Indian Council of Chemists held at Roorkee, 2003.
