ACKNOWLEDGMENTS

It is with pleasure that I intend to here record my deep sense of
gratitude to Prof. K R Subrahmanya, Professor of Marine Geology,
Mangalore University for extending me a fellowship under the Department
of Ocean Development Research Project and for suggesting the research
problem as also for making available the laboratory facilities necessary for
my work. His guidance, encouragement and keen interest all through the
project have sustained my work. It is real pleasure to do research under his
guidance since academic freedom is its norm. I am grateful to him.

My thanks are due to Prof. T R Shreedhara Murthy and Dr R Shankar,
Reader, who extended the laboratory facilities during their tenures as
chairmanship of the Department and for their encouragement.

Dr K S Jayappa, Lecturer, Department of Marine Geology has
helped me during the selection of the study sites/profile stations, and he
has shared his literature collection pertaining to the present study. I am
thankful to him.

Dr B R J Rao, Deputy Director General (Retired), Marine Geology and
Offshore Mineral Exploration Wing, Geological Survey of India and Prof. M P
M Reddy, Professor of Fisheries Oceanography (Retired), College of
Fisheries, Mangalore had shown keen interest in my work. Discussions I have
had with them and their valuable suggestions were of great help to my
work. I am grateful to both of them.

I am also a beneficiary of the discussions I have had with Dr B U Naik,
Director, Central Water and Power Research Station, Pune and Dr P
Chandramohan, Scientist, Ocean Engineering Division, National Institute of
Oceanography, Goa. I am thankful to them for their wholehearted appreciation and suggestions.

Dr G Narayana Swamy and Dr M K Antony, Scientists, Physical Oceanography Division, NIO, Goa, have given their valuable suggestions. I have enjoyed the hospitality extended by the scientists of the Geological Oceanography Division, NIO, especially, Dr N H Hashimi, Dr Rajiv Nigam, Dr M V Ramana, Dr M V S Gupta, Dr Praveen Henriques (now in Mumbai) and Dr Niloy Khare (now in Antarctic Research Centre, Goa) during my visits to NIO, Goa. Sri Thejaswi, Documentation Officer, NIO Library, extended his help in collecting some important and old literature. I am thankful to all of them.

Sri Puttappa Naik, Assistant Executive Engineer and Sri Dase Gowda, Assistant Engineer, Karnataka Engineering Research Station, Mangalore have provided me some of the profile data at the beginning of my work. I am thankful to them.

Prof. J Dattatri, Professor (Retired) of Applied Mechanics, Karnataka Regional Engineering College, Surathkal has kindly spared his time for discussions and has extended valuable suggestions. I am thankful to him.

I acknowledge the help of Dr B R Manjunatha, Lecturer, Department of Marine Geology. He made available some of the rare literature from NIO library and had also extended hospitality when he was at Goa.

Help and encouragement of Sri M Senthiappan, Sri K V Venkatesh and Sri G Adiga, Geologists, MG & OME Wing Geological Survey of India, Mangalore are gratefully acknowledged.

Sri Ravishankar Rao, Lecturer, Department of English, and also the Private Secretary to the Vice Chancellor, Mangalore University was kind
enough to go through a major part of the manuscript and has made etymological corrections. I am thankful to him.

Sri G C Vijay Aithal, Programming Assistant, Computer Centre, Mangalore University taught me computer programming, improved my programs and helped me whenever I had problems pertaining to software. Dr K M Balakrishna, Reader, Department of Physics is the inspiring person behind my computer obsession and also my computer hardware expertise. Dr H M Somashekarappa, Head, USIC extended timely help in many respects.

Sri M V Satish assisted me during the period of my field survey and sample collections and he has neatly and skillfully drawn the maps and diagrams when he was with us in the research project. I record here my appreciation of his help.

Encouragement and moral support from my parents and my brothers are the inspirations for me to select the research carrier. Their blessings have sustained my research work.

The financial support for this study came from the Department of Ocean Development, Government of India in the form of a fellowship under the Research Project [DOD/11-MRDF/1/39] sanctioned to Prof. K R Subrahmanya.

G C Suresh
