ACKNOWLEDGEMENTS

I am grateful to Dr. Ramesh V. Bhat, M.Sc., Ph.D. D.P.E.M., Deputy Director, Food and Drug Toxicology Research Centre, National Institute of Nutrition for his guidance I received throughout the period of my work. I also wish to place on record my heartfelt thanks for his constant encouragement and support for building up my career. I am greatly indebted to him for this kind gesture.

I am thankful to Dr. Vinodini Reddy, Director, National Institute of Nutrition for her keen interest in the study.

My sincere thanks are due to Dr. T.C. Raghuram, Assistant Director, Drug Toxicology Division for his help in the epidemiological studies and Dr. Sesikaran, Senior Research Officer for his help in histopathological studies.

My thanks are also due to Dr. B. Sashidhar Rao, Lecturer, Department of Biochemistry, Osmania University for his valuable suggestions in the early stages of this investigation.

I also thank Dr. S.L.N. Rao, Professor, Department of Biochemistry, Osmania University for providing B-cyanoalanine standard.

I thank Dr. Bhavani Sankaram, Scientist F and Dr. Vairamani, Scientist E1 of Indian Institute of Chemical Technology, Hyderabad for their help in I.R, NMR and M.S studies.
I would like to place on record my sincere thanks for the valuable suggestions given by Col. O.P. Kapur, former Director, Central Food Laboratory, Mysore and Dr. K.T. Achaya, President, Nutrition Society of India.

I also thank my colleagues Mr. R. Nageshwar Rao, Prathapkumar Shetty and Dr. Amruth Rao, for their useful support during the course of the study.

Thanks are also due to Sri. P. Suryanarayana Murthy, Public Analyst, State Food Laboratory, Hyderabad and other public analysts from the various State Food Laboratories for a prompt response to the questionnaire.

I thank Sri Jaya Kumar, Quality Control incharge, Modern Food Industries, Hyderabad, for his help in studying the rheological properties of wheat dough.

Finally I thank Mrs. K. Sailaja for excellent typing of thesis.
