ACKNOWLEDGEMENTS

It is with immense pleasure and privilege, I wish to place on record my profound sense of gratitude to my esteemed guide Prof. B. Thimme Gowda, Department of Post-Graduate Studies and Research in Chemistry, Mangalore University, Mangalagangotri, who introduced me to the field of my work and supervised the work at all stages. His painstaking efforts in training students as well as his thoroughness in the field have helped me to reach a successful completion of the work. I also thank him for providing me all the available facilities necessary to carryout this work.

I am grateful to Prof. J. Ishwara Bhat, Chairman and other faculty members, Prof. B. Shivarama Holla, Prof. A. M. A. Khader, Prof. B. Kalluraya, Prof. B. Narayana, Dr. Suresh P. Nayak, Dr.(Mrs.) B. Vishalakshi, Dr. Boja Poojari, Dr.Jagadish Prasad, Department of Chemistry, Mangalore University, Mangalagangotri for their support and encouragement during the period of my research work.

I also gratefully acknowledge the prompt services of SAIF, Punjab University, for all the NMR Spectra, Institute of Materials Science-Structural Research Group, Darmstadt University of Technology, Darmstadt, Germany for crystal structure measurements and Sequent Scientific Ltd. Bykampady, Mangalore for IR Spectra.

I gratefully acknowledge the timely help and co-operation of my fellow researchers, Dr. Savitha, Dr. Srilatha, Dr. Roopa Nayak, Ms. Nirmala, Mr. Suchethan, Mrs. Shakunthala, Mrs. Saraswathi, Mrs. Vinola, Ms. Chaithanya and other research scholars in the department. The chain of gratitude would definitely be incomplete without thanking my friend Mrs. Sowmya, whose cheerful support and inspirational words throughout the years have contributed to the accomplishment of my research work and execution of my thesis.

I thank our office and non-teaching staff, Mr. H. M. Ravi, Mr. A. Rajendran, Mr. Manohar, Mr. Narayan, Ms. Usha, Mrs. Kavitha, Mr. Jayanth, Mr. Soofi Kunhi, Mr. Sadashiva, Mr. Ashok and Mr. Vasantha for their timely help.

I thank almighty god for making this day possible. I am short of words to express my heartfelt gratefulness to my beloved father Mr. K. Sundara Gowda and my mother Mrs. Damayanthi, who are behind all my success and without their support I could not reach this stage. I ever remember the much wanted good wishes, motivation, unconditional love and support received from my in-laws, sisters, brothers, sister in-laws and brother in-laws. My sincere thanks are due to other family members, relatives and friends, for their good wishes and support.

I have no words to thank my husband Dr. B. Lingappa, for his wholehearted support in each and every ways to bring up my carrier.

In conclusion, I thank all those who have helped me directly or indirectly during the period of my research work.

January 2009

K. S. BABITHA
