ACKNOWLEDGEMENT

I like to thank God, the Almighty, for the opportunity He gave me to study, to research and to write this dissertation and I thank God for giving me the ability, the strength, attitude and motivation through this research and to complete this work.

I wish to express my deep sense of gratitude to my research supervisor and my guide, Dr. S.L. Rayar, Associate Professor and HOD of Physics, St. Jude's College, Thoothoor, for his guidance, constant support, keen interest and encouragement. I sincerely thank my guide, who introduced me to the field of crystal growth and nonlinear optical materials and guided me in the most profound manner with continuous inspiration and love during the work and made himself available for guidance and discussion in the odd hours of the days. He gave me enormous freedom in choosing my research problem and the manner in which I conducted my experiments.

I am thankful to Dr. P. Selvarajan, M.Sc., M.Tech., Ph.D., PGDCA, Associate Professor of Physics, Aditanar College of Arts and Science, Tiruchendur, Tamilnadu, for his fruitful suggestions, help and guidance. I thank Dr. M. Jezer Jebanesan, Principal, Scott Christian College, Nagercoil and Dr. A. Moses Ezhil Raj, HOD of Physics, Scott Christian College, Nagercoil for giving enough support and encouragement throughout the course of the work. I also express my deepest gratitude to the Physics department faculties, Lab Assistants and supporting staff of Scott Christian College, Nagercoil for their support and help.

I wish to extend my thanks to the staff members of Scott Christian College, Nagercoil, S.T. Hindu College, Nagercoil and Aditanar College of Arts and Science, Tiruchendur for having provided me with all the necessary equipments and all the
facilities for me to complete this work. I offer deep thanks to my friend J.Suresh Kumar for his contribution and helpful discussions.

I express my gratitude and thanks to the authorities and staff members of St. Joseph’s College, Trichy, Sophisticated Test and Instrumentation Centre, Cochin University of Science and Technology, IIT, Chennai, Karunya University, Coimbatore, VIT, Vellore, NIT, Trichy, Loyola College, Chennai and Crescent Engineering College, Chennai, Anna University, Chennai for providing instrumental facility for characterization of the grown crystals.

I owe my success in this endeavour to the unconditional support extended to me by my husband Mr.P.Karthikeyan, my sons master K.M.Sanjeev Giri and master K.M.Lalin Akhilesh Giri. Without their support I could not have achieved the completion of this project. My parents Mr.S.Manthiram and Mrs.C.Valliammal are the active inducing force both physically, mentally and financially for the completion of this project. Undoubtedly my father in law Mr.S.Parangiri is the guiding force to proceed in the right direction and his timely suggestions were very useful to me to carry out this project. My mother in law Mrs.P.Veilumuthu is the silent but strong mind my supporting force to me in this venture.

Finally all this supports are due to kind mercy of the Almighty omnipotent force. Without those blessings, I would not have succeeded. My whole hearted gratitude to all. My sincere thanks to all those who have encouraged and supported me in the completion of the research work and the thesis preparation.

M.MALATHI
