ACKNOWLEDGEMENTS

It gives me immense pleasure just to know that what I dreamt about around 6 years ago is becoming a reality. In this process so many people were involved. Efforts of so many, wishes of so many, support of so many and so on.

The first one in the list is that Almighty who made it possible for me by giving a chance to do research in the field I wished for. Secondly my parents, who took lot of pains, but showed me their smiling face. Their support from time to time was really the driving force behind me. I also take this opportunity to thank my brother, Mandar, who was instrumental in realizing my dreams. He was always there to support and guide me.

I would sincerely like to thank Dr. VN Krishnamurthy, Director, DRDO-ISRO cells, Pune, who gave me a chance to fulfill my dream. I always relied on him when in difficulties and he gave a listening ear with wonderful solutions.

I would like to extend my immense sense of gratitude towards my research guide and Head of Department Dr. (Ms.) SA Gangal for allowing me to carry out research work under her guidance and in the department. Her way of tackling the problem is simply different. Her ever smiling face always boosted my confidence whenever down with some problem. She was always there to extend her help when needed.
I would like to extend my thanks to Dr. AB Mandale, Scientist NCL who helped in XPS analysis. Thanks are due to Dr. Rane, C-MET, for extending his help in recording FTIR.

Not to forget teaching faculty of Department of Electronic Science, who helped me whenever needed. The non-teaching staff was immensely co-operative. Thanks to them too.

I would also like to extend my thanks to the friends in DRDO-ISRO cells: Pratibha Madam, Harish, Sandhya, Shraddha, Anuj, where I always felt homely. Not to forget friends from NCL, Sandeep, Paresh, Vishal, Shinde, Shrojal etc. to whom I always troubled a lot for solving problems related to chemistry.

It gives me pleasure to thank all my labmates, Raka Madam, Sheetal, Sarita, Anilkumar Sir, Sachin, Joshi Sir, Ashutosh, Yogesh, Hemal, Alpana, Shekhar, Priya, Tanisha, Varsha etc., without their co-operation in difficult times, it would have been difficult to complete the task. Thank you all EB Lians, you will be always remembered and cherished.

I will also like to thank the Aniket Canteen guys, without them it would have been difficult to change moods, after long and tough days of work.

Finally Thanks to CSIR, India, for providing financial assistance.

Dhananjay Bodas
