ACKNOWLEDGEMENTS

From the formative stages of this thesis to the final draft, I owe an immense debt of gratitude to my research supervisor Prof. Dr. M.B. Viswanathan, Coordinator, Centre for Herbal Drug Discovery and Development, Department of Plant Science, Bharathidasan University, Tiruchirappalli - 620 024, formerly Reader, Division of Biodiversity, Drug Discovery and Development, Sri Paramakalyani Centre for Environmental Sciences, Manonmaniam Sundaranar University, Alwarkurichi – 627 412, for his meticulous and exhilarating guidance, research liberty, literary criticism, constant commendation and a winning ambiance for the successful completion of this research work.

I would like to express my heartfelt thanks to Dr. K. Balakrishna, Research Officer (Chemistry), Captain Srinivasa Murti Drug Research Institute for Ayurveda, Central Research Institute for Siddha, Chennai 600 106, for the support and counsels rendered to the phytochemical part of the research work.

I am bound to record my sincere gratitude to Prof. Dr. D. Velmurugan, Department of Crystallography, University of Madras, Guindy Campus, Chennai, for extending his noble service in elucidating crystallographic data of the isolated compound (bergenin).

I am grateful indeed to Mr. M. Palanivelu, Principal, and Mr. N.R. Livingston Raja, Head, Department of Pharmacology, Arulmighu Kalasalingam College of Pharmacy, Anand Nagar, Krishnan Kovil, for permission to carry out pharmacological research and for extending expertise to fulfill pharmacological research with vast experience and simplicity. Further, I deem it a privilege to express my sincere thanks to
Mrs. J. Jeya Ananthi and Mrs. A. Thaenmozhi, Department of Analytical Chemistry of the same institution for their incredible support and encouragement.

My gratitude is due to Mr. P. Solairaj, Head and Associate Professor in Pharmaceutical Chemistry, Sankaralingam Bhuvaneswari College of Pharmacy, Sivakasi, for his generous help to complete some portions of pharmacological research.

I also express my profound sense of gratitude to the Indian Institute of Technology (IIT), Chennai, SPIC Pharma Analytical Laboratories, Maraimalai Nagar, Chennai, Dr. Ceeal Analytical Laboratory, Chennai, Sargam Metals, Chennai, and Shimadzu Instrument, Mumbai, for extending Instrumentation Facility to take spectral data of the compounds.

I would like to energize the opportunity to express my greatest appreciation and special word of thanks to my friend and colleague, Mr. M. Venkatesan, for his moral support and invaluable encouragement to make this thesis a success and Mr. A.C. Tangavelou, who were the clutching stones to backup my studies.

My gratitude never ends without thanking my friend, Mrs. C. Anbarasi M. Sc., M.Phil., for her valuable and timely help to analyze research data by statistical methods.

I wish to express my deep sense of heartfelt thanks to my friends, Mr. R. Malaramuthan, M.A., M.Phil., Mr. P. Saravanan, B.L., Mrs. S. Kavitha Saravanan, B.L., Ms. S. Najeema, M.Sc., M.Phil., and Mrs. R. Pitchammal, B.L.I.S., and Mrs. B. Kalaiselvi M.Pharm., for their life challenging guidelines and powerful support to my activities and invaluable encouragement.

I thank Teaching Staff, Non-Teaching Staff and Research Scholars of Sri Paramakalyani Centre for Environmental Sciences, Manonmaniam Sundaranar
University, Alwarkurichi, and Department of Plant Science, Bharathidasan University, Tiruchirappalli, for their moral support and help.

I would like to extend my words to appreciate Mr. A. Suresh Kumar, who made this work encrypted through sophisticated typing rules and to design my thesis to its last perfection.

On a personal note, I wish to record my thanks to my mother for her sacrifice of personal convenience, dedication and support in all the ways to complete this work with success, a personal dream of her, and to my brothers for their love, affection and moral support.

I specially thank my brother, O. Siva Radhakrishnan @ Kannan, who introduced me to the doctoral program and transformed his desire through his friendship.

I deeply express my gratitude to my husband for his solidarity, dedication, support and help throughout the course of my work with unstinted manner.

I would like to extend my lovable thanks to my daughter who has often missed my presence at the times of need and received support from her grandmother.

I thank all other family members for their generosity and support.

I feel extremely happy and proud to thank all of those who have extended their professionalism and expertise during the course of my research work.

Last but not the least thanks to GOD the Divine Who transforms impossible into possible.
