ACKNOWLEDGEMENTS

I would like to express my sincere gratitude to my advisor Prof. Shailaja Mahamuni, Savitribai Phule Pune University, Pune and co-advisor Dr. V. Sudarsan, BARC, Mumbai for the continuous support of my Ph.D. study and related research, for their patience, motivation, and immense knowledge. Their guidance helped me in all the time of research and writing of this thesis. I could not have imagined having a better advisor and mentor for my Ph.D. study.

My sincere thanks goes to former and present Head, Department of Physics, Savitribai Phule Pune University, Pune for allowing me to use the various departmental facilities.

I am extremely thankful to Dr. R. Sasikala, BARC, Mumbai for photo-catalysis measurements.

I am thankful to Head, Chemistry division, Mod Labs, BARC, Mumbai for allowing me to carry out research and providing various characterization techniques.

Indian Institute of Technology, Mumbai is greatfully acknowledged for providing HRTEM and ICP-AES measurements.

I am grateful to Dr. S. K. Date, Prof. (Mrs.) S. V. Bhoraskar, Prof. Vidyasagar, Prof. Pathak, Dr. Pathan, and Dr. Dahiwale for revising my research after every six month and also giving valuable suggestions.

I would like to give thanks to all teaching and non-teaching staff of Department of Physics, S. P. Pune University for their consistent help.

I would like to thank my colleagues Dr. Darshana Inamdar, Dr. Ch. Rajesh, Dr. Kiran Sonawane, Chinmay Phadnis, Nilesh Pote, Aparna Shinde, Swapnil Doke,
Amruta Lohar, Abdul, and Sheetal Malvankar for the discussions and kind support. I also thank my friends from BARC, Mumbai for their kind help and support in BARC.

I am thankful to all my friends especially Rahul, Swamini, Sheetal, Sarika, Damyanti, and Manisha. Their support and care helped me a lot during these years. I especially thanks to Gopal Wamane who stood up behind me throughout my Ph.D career and became my strong moral support.

My deepest gratitude goes to my family for their love, support and patience throughout my life; this thesis is simply impossible without them. I am indebted to my father, Mr. Vasant Kahane and Mother Mrs. Chandrakala Kahane for their unselfish blessings and support. Without their faith in me, I could not have made it this far. I also like to thank my elder sister, Mrs. Archana Birar and Brother Mr. Mahesh Kahane for their encouragement and concern for me.

The financial assistance from Department of Atomic Energy through BARC-Pune collaborative programme, is greatfully acknowledged.

Shital Vasant Kahane
