Acknowledgements

Apart from the personal efforts and steadfastness to work, constant inspiration and encouragement given by a number of individuals served as the driving force enabled me to submit this thesis in the present form. Inspiration, guidance, direction, co-operation, love and care-all came in my way in abundance as it seems almost impossible task for me in adequate terms. I am deeply privileged to evince a word of thanks to everyone who played a positive role in the completion of my research work with the grace of god I have been enlighten and empowered to complete my work successfully.

First and foremost my greatest appreciation and respect goes to my esteemed supervisor, Dr. Brijesh Pare, Professor, Department of Chemistry, Govt. Madhav Science College, Vikram University, Ujjain (M.P.), for his keen interest, strong motivation and constant encouragement during the course of the work. I also thank to him for the confidence he has shown to me. It is because of his priceless intellectual guidance, innovative and constructive ideas for having given me complete independence, affectionate encouragement to put my desire and thought, which paved the way for the successful completion of this work. From deep inside thank him and his family for their opportune support and help.

It gives me the deepest sense of appreciation and great pleasure to acknowledge Dr. Usha Shrivastava, Principle, Govt. Madhav Science College, Vikram University, Ujjain (M.P.) and Dr. U. C. Maiwal, Professor and Head, Department of Chemistry, Govt. Madhav Science College, Vikram University, Ujjain (M.P.) for providing all possible laboratory facilities to carry out the experimentation.

I feel obliged to all my respected teachers, Dr. (Mrs.) Bhagirati Nair, Dr. (Mrs.) Neelam Kapil, Dr. Ajay Chaturvedi, Dr. (Mrs.) Rashmi Bhargav, Dr. Arpan Bhardvaj, Dr. Shakuntala Pandey, Dr. Dipendra Raghuvanshi and from Govt. Madhav Science College, Vikram University, Ujjain (M.P.) for their kind cooperation and help offered during the work period.

I am grateful to Dr. P. Chaddah (Director, UGC-DAE, CSR, Indore) and Prof. Ajay Gupta (Centre Director, UGC-DAE, CSR, Indore) for providing experimental facilities
at UGC-DAE Consortium for Scientific Research, Indore as a user. I thank Dr. T. Shripathi, Dr., Dr. N.P. Lalla, Dr. D.M. Phase, Mr. U. Deshpande, and the technical staff of UGC-DAE, CSR, Indore for their kind cooperation and help offered during the work period.

I would like to convey my sincere gratitude to Dr. Manisha Ayachit who encourages me as a teacher from time to time during the tenure of my research work. I specially acknowledge Dr. Pardeep Singh for his cooperation at the initial period of my research work and timely help and valuable discussions.

I also extend my thanks to my lab mates, Prakash More, David Swami, Vijendra Singh Solanki, Tripti Dwivedi, Tehmina Khan, Varsha Sharma for numerous contributions to this work. I would also like to thank Anish Goreya, Tripti Kamalpuria for helping as well as for their friendly contributions.

I am extremely thankful to Mrs. Priya Pare for their wholehearted cooperation and support during the tenure of the work.

I am also thankful to non teaching staff members of the department for their invaluable cooperation and help during the entire tenure of my studies in the department. I take this opportunity to thank all my friends for their help and moral support.

Finally and most importantly I would like to place in record the perseverance and affection shown by my loving father Shri Ramkumar Sarwan, my mother Smt. Kavita Sarwan, my sister Jayshree and my brothers Himalay and Himanshu Sarwan, for guiding and helping me to face the adventures of life. No words of thanks can be enough to Holy God, Holy Omnipotent and Holy Immortal who remains sympathetic during my hard days.

Thank you for making this a reality.

Bhawna Sarwan
