Acknowledgment

It is my profound privilege to express sense of gratitude to my guides Dr K S Dasgupta and Dr N M Devashrayee for their constant guidance, inspiration and encouragement throughout this research work and for their critical reviews during the compilation of this thesis. Without their valuable support, I could not have envisaged the successful completion of the thesis. The guidance provided by them has helped me in understanding the subject and associated research elements.

I would like to thank Institute of Technology, Nirma University for allowing me to work on this research topic. My sincere gratitude goes to Director, Dr Ketan Kotecha, Ex-director, Dr H V Trivedi for constant encouragement and guidance.

I am grateful to members of RPC Dr S N Pradhan (Professor, Nirma University) and Dr Prabhat Ranjan (Professor, DAIICT Gandhinagar). I would like to thank Prof A S Ranade HoD (EE), IT-NU and Dr M D Desai, who motivated me to take up further studies.

I am very thankful to Dr Haresh S Bhatt and team of ADCTG of Space Application Center - ISRO, Ahmedabad for providing Lab Facility and technical guidance to carry out research work.

My sincere thanks goes to all my spiritual masters, academic masters, friends and well wishers who helped me directly or indirectly during the work, giving valuable ideas and suggestions about the thesis.

Last but not the least; I would like to express my heartfelt gratitude to my parents for their inspiration towards my education and up-bringing. I am much indebted to my wife “Shilpa” and son “Murtip” for their patience and endless support, and for their encouragement to me during this research work.
