

ACKNOWLEDGEMENT

It is my pleasure to acknowledge all those who have helped me during the tenure of my Ph.D. work.

I wish to record my profound gratitude and indebtedness to my research guide Dr. K. M. Paknikar. But for his keen interest, invaluable suggestions, innovative ideas and expert guidance, I would have been unable to prepare this piece of work in the present form. Working with him has been a truly rewarding experience.

I am grateful to Dr. A. D. Agate, Director, Agharkar Research Institute for giving me an opportunity to work in this Institute and for providing a research fellowship. I take this opportunity to thank Dr.(Mrs.) P. P. Kanekar, Scientist In-Charge, Division of Microbial Sciences, for her unreserved help during the course of my work.

I am thankful to Dr. P. K. Dhakephalkar for his valuable suggestions and the interest shown by him in my work. I am equally thankful to Dr. S. B. Bhosale who spared his valuable time and gave extensive co-operation to me.

Dr. S. K. Date, Dr. R. F. Shinde and Dr. P. P. Bakare (Special Instruments Division, NCL, Pune) helped me with the EPR spectrometric analysis. I thank them.

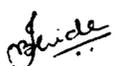

Suggestions by Dr. (Mrs.) S. K. Paknikar have indeed helped me a lot.

Words cannot express my indebtedness to my dear friends and colleagues in our laboratory, Mrs. N. R. Joshi, Mrs. N. S. Chabukswar, Mrs. J. V. Vernekar, Mr. A. G. Lagoo, Mr. P. R. Puranik, Mr. A. V. Pethkar and Mr. Y. B. Patil for their constant encouragement. Their spontaneity in providing all their assistance and giving encouragement when it was most needed, has put me permanently in their debt. The moments I have shared with them are really unforgettable.

I wish to thank all other staff members and students at the Division of Microbial Sciences for their kind co-operation.

I am thankful to Mr. D. N. Nagpure, Mr. A. V. Pethkar and Mr. B. M. Kavathekar for photography and artwork.

My special thanks to Rajwade family for their whole-hearted co-operation. My parents and my family members were a source of constant inspiration. The patience shown by them was indeed commendable.

(Jyutika V. Bhide)
