Acknowledgement

To the Almighty Allah, for giving me the power to believe in myself and pursue my dreams. I could have never done this research without the faith I have in you. This thesis would not have been possible without the guidance and the help of several individuals who in one way or another contributed and extended their valuable assistance in the preparation and completion of this study.

First and foremost, my utmost gratitude is to my supervisor Dr. Tahira Khatoon (Associate Professor, Department of Education, A.M.U.). She taught me, both consciously and unconsciously how a good research is carried out. Her wide knowledge and logical way of thinking have been of great value for me. I owe to her contributions of time, ideas and suggestions to make my research experience productive and stimulating. The joy and enthusiasm she has for the research was contagious and motivational for me, even during the tough times in the Ph.D. pursuit.

I express my warm and sincere thanks to my esteemed teachers, Prof. Roquiya Zainuddin (Chairperson, Department of Education, A.M.U.) and Prof. C.P. S. Chauhan (Dean, Faculty of Social Sciences, A.M.U.) for being the guiding lights and showing their kind concern regarding the fulfillment of my academic requirements. I also extend my deep thanks to Prof. Nabi Ahmed (Professor, Department of Education, A.M.U.) for the timely valuables advices.

My special gratitude is to my father-in-law, my mentor, Prof. Abdul Qaiyum who gave his valuable suggestions and comments at every step and provided me his guidance in the statistical procedures and analysis.
I owe my loving thanks to my husband, Er. Sameer Qaiyum who kept great patience and bore with the time I had to put in my research work, he was extremely supportive and had been the constant source of my encouragement and moral support. He put in hard labor in the formatting procedure and giving my research the worthy presentation.

My sincere thanks are extended to Md. Asif Khan (Assistant), Mr. Imaduddin (Personal Assistant) and library members of the Department and University for giving sincere and warm cooperation throughout the course of study.

I offer my heartfelt thanks to all my seniors and research mates and I extend my special thanks to my friends Saima, Priya and Maria for accompanying and helping me during the data collection procedure.

My outmost thanks are to my parents, Dr. Mahmood Ahmed Khan and Dr. Asiya Aijaz who have made me believe in my dreams, have imbibed in me the spirit of being a success and above all gave me the love that keeps me going in all times. Also, I would have not been able to keep up with the pressure of getting my work done on time if my siblings, Shazia Apa, Saman Apa, Asad Bhai, Sana and Faizi have not helped me in making my times lighter by their joyful spirits.

Last but not the least, the financial support in the form of monthly scholarship by the University Grant Commission, is gratefully acknowledged.

Sadia Mahmood
