

I DEDICATE THIS THESIS TO MY  
BELOVED PARENTS

“MR. B. SUBBIAH,  
MRS. S. PAPPAN”

## **ACKNOWLEDGEMENT**

I take immense pleasure to express my deep sense of gratitude, indebtedness and respect to my guide, Dr. K. Muthuchelian, Chairperson, Professor and Head, Department of Bioenergy, School of Energy, Environment and Natural Resources, Madurai Kamaraj University University, Madurai for his expert guidance, tireless help, freedom, continuous encouragement, support and recognition to complete my work successfully.

I would like to express my sincere thanks to University Grants Commission (UGC) for the award of Junior Research fellow (JRF) under the Basic Science Research (BSR) for meritorious students from the period June 2011 to June 2013 and further Senior Research fellow (SRF) from June 2013.

My special thanks and gratitude to Dr. K. Swaminathan, Professor and Head, Department of Microbial Biotechnology, School of Biotechnology and Genetic Engineering, Bharathiar University, Coimbatore for his valuable instructions, suggestions and constant encouragement during the entire course of study. I also bestow upon my sincere thanks to Dr. Suguna Shanmugasundaram and Mr. K. Balachander, Dept of Microbial biotechnology, MKU for their kind help to access AFM analysis. I also thank University Science Instrumentation Center (USIC), MKU for providing FTIR analysis to my samples. I heartily thank Dr. R. Jeyakumar and Mr. Sanoj Rejinold, Center for nanosciences and Research, Amrita Institute for nanosciences for greatly helping analysing my samples for anticancer activity. I also take immense pleasure in expressing my sincere thanks to Dr. K. K. Natarajan sir for his valuable suggestions and patience while correcting my thesis. I also wish to thank Dr. Vijay Bhaskar, Assistant Professor, Dept of Bioenergy, School of Energy, Environment and Natural Resources, Madurai Kamaraj University, Madurai.

I want to thank my seniors Mahesh, Prabhu Inbaraj, Parimala, Kamal Raj, Saravanan, Indra and Marimuthu for all their help, support, interest and valuable hints. I would like to thank all the part-time and FIP research scholars for their support. I thank the non-teaching staff and research scholars from other labs for their help and support. I also thank my friends Kanagaraj, Yogeswari, Reddy, Manoj Singh, Maruthupandy and Jeeva Priya for their inspiration and moral boosting kinship to complete my work.

## **Acknowledgement**

---

Finally I wholeheartedly express my deepest sense of gratitude, love and affection to my parents B. Subbiah and S. Pappa for their constant motivation, support, love and interest. I am very much delighted to express my thanks to my beloved husband M. Arul Parthiban and my son A. R. Rupak for coordinating and understanding my situation for the smooth completion of the thesis. I am also grateful to my brother S. Karthikeyan and other family members for their continuous support and encouragement.

**S. Ramalakshmi**
