ACKNOWLEDGEMENT

"If I knew what it was we were doing, it would not be called research, would it?"

"We can't solve problems by using the same kind of thinking we used when we created them".

"Imagination is more important than knowledge. For knowledge is limited to all we now know and understand, while imagination embraces the entire world, and all there ever will be to know and understand".

- Albert Einstein

First and foremost, I thank the God Almighty for instilling the necessary strength and confidence in me to face the strides in life. The various stages that transpired in my life, make me truly believe in the existence of the supreme being. I am grateful and indebted to my parents for their support and encouragement, assisting my way up in the intellectual ladder.

I would like to express my gratitude towards my Research advisor, Dr. J. Thomas Joseph Prakash, Asst. Professor, PG and Research Department of Physics, H.H The Rajah's College (Autonomous), Pudukkottai, Tamilnadu, India. Your strong directions and compassion has gone a long way in helping me to complete this work successfully. Thanks for helping me meet my deadlines and reviewing papers over very short notices. The high standards you set in the courses and discussions remained as a stable platform for my research work.
I consider myself very fortunate to take Pre Ph.D. presentation at H.H. The Rajah's College (Autonomous), Pudukkottai. The presentation went live with the association of Principal, Head of the Department Dr. N. Athavan, Staff members and Students of H.H The Rajah's College, Pudukkottai.

I am very fortunate to have my wife Mrs. P. Savithri, who is never tired to help me to complete my thesis. I dedicate this contribution to all of you and to my beloved Parents without them this could not been accomplished.

R. Ramachandran
