

ACKNOWLEDGEMENTS

I am falling short of words in expressing my immense gratitude for my revered Supervisor, Dr. Mohamad Yusuf, for the continued enthusiasm, support and advice throughout the work. His constant guidance, encouragement and keen personal interest inspired me to work more diligently and efficiently.

I am highly thankful to Prof. Balbir Kaur, Head, Department of Chemistry for providing the necessary facilities to complete my research work without any hurdles.

I am also bound to thank to Prof. Baldev Singh, former Head, Department of Chemistry for his generous and cooperative attitude.

I am highly thankful to Mr. Avtar Singh, RSIC, Panjab University, Chandigarh for providing the ^1H -NMR and ^{13}C -NMR spectra of my research samples.

I would be failing in my duty if I don't mention here the names of research scholars Indu, Manvinder, Varsha Samdhian and Manpreet for extending their support and help whenever required.

Especially, I would like to give my special thanks to my husband Arun Garg whose patient love enabled me to complete this work. I wish to thank my entire in laws family for providing me a loving environment.

Last but not the least, I humbly acknowledge the love and blessing of my parents, who have always prayed to the almighty for my success and enshowered me with their blessings. If at all I come to this prestigious university and submit this thesis here now, behind it lies the difficulties which I could surpass efficiently due to their innocent and deep prayers for me.

Through all may not be mentioned, none is forgotten. I would like to thank all the persons who helped me directly and indirectly in the successful completion of this research work.

(Payal Jain)
