ACKNOWLEDGEMENTS

Journey is easier when you travel together. This thesis is result of work where I have been accompanied and supported by many people. I feel myself privileged to express my gratitude to everyone who directly or indirectly contributed to the success of this work. First and foremost, I offer salutation to The Almighty God for blessing, protecting and guiding me throughout this period. I could never have accomplished this without the faith I have in Him.

I express my profound sense of reverence to my esteemed and worthy supervisor Dr. Ashok Kumar Malik, Professor, Department of Chemistry, Punjabi University, Patiala under whose able guidance I undertook the present work. I have been amazingly fortunate to have a mentor who gave me the freedom to explore on my own and at the same time the guidance to recover when my steps faltered. He taught me how to question thoughts and express ideas and his in-depth knowledge on chromatographic techniques has been extremely beneficial for me. His patience and support helped me overcome many crisis situations and finish this dissertation. I hope that one day I would become as good an advisor to my students as he has been to me.

I am extremely thankful to Dr. Baldev Singh, my Co-supervisor and former Head Department of Chemistry, Punjabi University, Patiala for rendering all kind of help and co-operation during the course of my research work. I will always remember his calm and relaxed nature, and the way he asks ‘YES! How can I help you?’, whenever I enter his office.

I am obliged to Professor and Head, Dr. Balbir Kaur, Department of Chemistry, Punjabi University, Patiala for providing me necessary facilities and support. I am also grateful to all the faculty members of the department for their co-operation.
Of course all of my colleagues Dr. Ashwini Kumar, Dr. Gaurav, Pooja Bansal, Kuldeep Kaur, Manpreet Kaur, Shipra and Shivender should not be forgotten! Thank you for the interesting discussions concerning my work, for supporting me when yet another experiment went wrong. I also thank all the non-staff members of Chemistry department, especially Dr. Niranjan Singh, for their co-operation.

Words alone are not sufficient to express my feelings about my immense gratitude that I owe to my dear parents Sh. Ram Kumar Verma & Smt. Kamlesh Verma and my parents-in-law Dr. N. R. Dhamiwal, Professor of Chemistry & Smt. Meena Dhamiwal for their endless love, deep affection, heartfelt blessings and ever encouraging moral support. I heartedly acknowledge the unconditional and continuous support of my younger brothers Rakesh & Mukesh, loving sisters Roshni & Neelam, brother-in-law Mr. Rajesh Dhamiwal and sister-in-law Smt. Rachna Dhamiwal during my days of struggle.

Most importantly, none of this would have been completed without the love, support, continuous motivation, co-operation and encouragement offered by my husband Er. Amit Dhamiwal as he has been a constant source of strength all these years.

A special word of thanks must also go to UGC, New Delhi for providing financial support.
