	<b>Page No</b>
<b>CHAPTER I</b>	
<b>INTRODUCTION</b>	
1.1 About polymeric thin films	01-03
1.2 Cellulose and its modification	03-17
1.3 Mechanical properties and moisture absorption behaviour	17-18
1.4 Gas barrier properties	19-22
1.5 Biodegradable properties	22-32
1.6 Objectives of the present study	33
References	34-37
<b>CHAPTER II</b>	
<b>PREPARATION AND PROPERTIES OF COMPOSITE FILMS FROM MODIFIED CELLULOSE FIBRE REINFORCED WITH PLA</b>	
2.1 Introduction	38-40
2.2 Experimental	41-46
2.3 Results and discussion	46-58
2.4 Conclusions	59
References	60-61
<b>CHAPTER III</b>	
<b>PREPARATION AND PROPERTIES OF BIODEGRADABLE FILM COMPOSITES USING MODIFIED CELLULOSE FIBRE-REINFORCED WITH PVA</b>	
3.1 Introduction	62-63
3.2 Experimental	63-64
3.3 Results and discussion	64-77
3.4 Conclusions	78
References	79-80
<b>CHAPTER IV</b>	
<b>PREPARATION AND INVESTIGATION OF GAS BARRIER, MECHANICAL AND BIODEGRADABLE PROPERTIES OF HYBRID FILM COMPOSITES OF MODIFIED CELLULOSE – PVA/PLA</b>	
4.1 Introduction	81-82
4.2 Experimental	83-84

4.3	Results and discussion	84-95
4.4	Conclusions	96
	References	97-98

## **CHAPTER V**

### **PREPARATION AND CHARACTERIZATION OF MODIFIED CELLULOSE FIBER-POLY (VINYL ALCOHOL)/POLYPYRROLIDONE HYBRID FILM COMPOSITES**

5.1	Introduction	99-100
5.2	Experimental	100-102
5.3	Results and discussion	102-115
5.4	Conclusions	116
	References	117-118

## **CHAPTER VI**

### **PREPARATION AND CHARACTERIZATION OF MODIFIED CELLULOSE FIBER-REINFORCED POLYPYRROLIDONE FILM COMPOSITES**

6.1	Introduction	119-120
6.2	Experimental	120-121
6.3	Results and discussion	121-130
6.4	Conclusions	130
	References	131-133

## **CHAPTER VII**

### **BIOCOMPOSITES PREPARATION AND CHARACTERIZATION BY 2- FLUOROBENZOYL CHLORIDE MODIFIED CELLULOSE FIBRE REINFORCED WITH PVA/PLA**

7.1	Introduction	134-136
7.2	Experimental	136-138
7.3	Results and discussion	138-151
7.4	Conclusions	152
	References	153-154
