

ACKNOWLEDGEMENT

My submission, first and foremost, to **GOD ALMIGHTY** for having guided me and fed me with needed mental skills and agility, emotional stamina and physical strength to cope with the demands and challenges of the study undertaken, and to complete the same in good time.

I wish to place on record my sincere thanks and profound gratitude to my guide **Dr. M Lellis Thivagar** who had always been and continues to remain a source of immense strength and joy, and an impeccable inspiration throughout this academic endeavour. In the same vein, let me acknowledge his ardent guidance and genuine involvement, at every stage of my work, towards the completion of the thesis.

I express my sincere thanks to **Rev. Fr. Sebastil Raj, SJ**, Provincial of Madurai Jesuit Province for constant support and encouragement, and his predecessor **Rev. Fr. M Devadoss SJ.**, and former Provincial of South Asia, **Rev. Fr. Hector D'souza SJ** who, fondly and compulsively, invited me to register for PhD. Let me recall, my good friend and an intellectual companion, **Fr. Ambrose Pinto SJ**, former Principal of St. Joseph's College, Bangalore who ceaselessly enthused me till date.

I thank **Jesuit management of Loyola College, Chennai, present Secretary, Principal and other Jesuit friends and companions** for their constant support in accomplishing this study. A unique place is due to **Fr. Rajanayagam SJ** for his timely suggestions and crucial inputs.

I am indebted to **Dr. S. J. Packiaraj** for his delightful assistance and enhancing my presentation, **Drs. K. S. Antonysamy, Bernard D'Sami**, former deans of Loyola College, whose inputs and discussions greatly assisted

me in comprehending and organising my thought processes futuristically. I am pleased to recall my former Professors, present ones in Mathematics department, and **Drs. Antony Xavier and P. Antony Kishore** for their mathematical companionships, and discussions.

I want to place on record the vast number of underprivileged rural students who do their studies in Chennai city colleges, for obliging me in filling the questionnaires, for their substantial information and interactions. Lest I forget, let me recount the incredible support extended to me by **Mr. A. Baskar Jeyabalan, Mr. Peter Wenisch, Profs. Devadoss and Nedumaran** who, in the company of their colleagues, spent their valuable time and energy in reaching the questionnaires to the students communities and collected them all, once the work was done.

No words could adequately express my gratitude to a family whose members remained part and parcel of my human and intellectual journey. Their persistent and unblemished support, the unstinted intellectual accompaniment, is something to be marvelled at, in the eye of God Almighty. May they all be blessed for eternity by same power!

Lastly, let me remember my parents, sisters, brothers and all family members for their continued prayers and the moral support to enhance my humanity, and to remain a loyal Jesuit true to the charisma of 'Ignatian Magis'. All my works are at the feet of my beloved mother, who is alive and a source of formidable spiritual strength, and my beloved father who had gone for his eternal reward and continues to inspire me and bless me all the days of my life.

K. AMAL
