Acknowledgement

At the very outset the author intends to express from the core of his heart his ever indebtedness and gratitude to Dr. Gopal Chakrabarti, and Prof. Amarnath Ghosh joint supervisors for their constant encouragement, inspiration, guidance and advice to carry out this research work.

The researcher expresses his heartfelt thanks and deep regards to Dr. Sudip Sundar Das, Head, Department of Physical education for allowing him to use the departmental library. In this connection he also thanks the librarian and other support staff who readily extended all cooperation for library works.

The investigator sincerely and gratefully acknowledges the kind of help rendered by Dr. Pratyush kumar Dey for his guidance, advice and assistance whenever needed in respect of the statistical works and analysis without which it would not have been possible for the scholar to complete the study.

The investigator will be failing in his duty if he does not recognise and put on record the constant encouragement and inspiration he always received from his colleagues working at Birnagar High School.

Sincere thanks, regards and appreciation are also due to the Heads of the Secondary schools of different Districts of West Bengal for extending their all support and cooperation by giving their valued consent to furnish required information through the questionnaire given to them.

The scholar must record with high appreciation the earnest and sincere co-operation extended by his two beloved students namely Sri Bikash Roychowdhury, Sri Abir Goswami and Sri Sujit Mandal by processing and assembling the collected data without which the statistical calculation would not have been completed.

Last but not the least is the cooperation extended by the family members and friends by their love, affection, admiration and encouragement.
