

C O N T E N T S

| CHAPTER | TITLE | PAGE |
|---------|---|------|
| I | GENERAL INTRODUCTION | 1 |
| | 1.1 Thin Films | 2 |
| | 1.2 Types of Oxides | 2 |
| | 1.3 Transition Metal Oxides | 3 |
| | 1.4 Manganese Oxides | 6 |
| | 1.5 Statement of the Problem | 12 |
| | References | 14 |
| II | THEORETICAL BACKGROUND | 15 |
| | 2.1 Introduction | 16 |
| | 2.2 Theoretical Models | 16 |
| | 2.2.1 Itinerant Models | 18 |
| | 2.2.2 Localized Electron Models | 22 |
| | 2.3 Transport Properties | 26 |
| | References | 30 |
| III | SPRAY PYROLYSIS TECHNIQUE AND DEPOSITION OF Mn-OXIDE FILMS | 31 |
| | 3.1 Introduction | 32 |
| | 3.2 Spray Pyrolysis Technique: Principle and Mechanism | 34 |
| | 3.3 Experimental setup for Spray Pyrolysis Technique | 36 |
| | 3.4 Procedure of Film Formation | 43 |
| | 3.5 Optimization of Preparative Parameters | 46 |
| | 3.5.1 Spray Rate | 46 |
| | 3.5.2 Substrate Temperature | 48 |
| | 3.5.3 Concentration of Spraying Solution | 48 |
| | 3.6 General Observations | 50 |
| | References | 52 |

Contents (contd.)

| CHAPTER | TITLE | PAGE |
|---------|---|---------|
| IV | STRUCTURAL PROPERTIES OF Mn-OXIDE FILMS | ... 54 |
| | 4.1 Introduction | ... 55 |
| | 4.2 Experimental setups for Structural Properties | ... 55 |
| | 4.3 Results and Discussion | ... 56 |
| | References | ... 73 |
| V | ELECTRICAL PROPERTIES OF Mn-OXIDE FILMS | ... 74 |
| | 5.1 Introduction | ... 75 |
| | 5.2 Experimental | ... 75 |
| | 5.2.1 Experimental setup for Electrical Properties | ... 75 |
| | 5.2.2 Experimental setup for Thickness Measurement | ... 81 |
| | 5.3 Results and Discussion | ... 81 |
| | 5.3.1 Dark Conductivity | ... 81 |
| | 5.3.2 Thermoelectric Power | ... 92 |
| | 5.3.3 Thickness | ... 96 |
| | References | ... 102 |
| VI | OPTICAL PROPERTIES OF Mn-OXIDE FILMS | ... 103 |
| | 6.1 Introduction | ... 104 |
| | 6.2 Experimental | ... 105 |
| | 6.2.1 Experimental setup for Optical Properties | ... 105 |
| | 6.3 Results and Discussion | ... 108 |
| | 6.3.1 Optical Absorption | ... 108 |
| | 6.3.2 Transmission | ... 116 |
| | 6.3.3 Refractive Index | ... 116 |
| | References | ... 127 |

Contents (contd.)

| CHAPTER | TITLE | PAGE |
|---------|---|---------|
| VII | ELECTROCHEMICAL PROPERTIES OF Mn-OXIDE FILMS | ... 128 |
| | 7.1 Introduction | ... 129 |
| | 7.2 Electrochemical Photovoltaic Cell : General Background | ... 129 |
| | 7.3 Experimental Details | ... 132 |
| | 7.3.1 Construction of ECPV Cell | ... 132 |
| | 7.3.2 Experimental setups for Electrical Characterization of ECPV Cell | ... 133 |
| | 7.4 Results and Discussion | ... 140 |
| | 7.4.1 Type of Conductivity | ... 140 |
| | 7.4.2 I-V Characteristics | ... 140 |
| | 7.4.3 C-V Characteristics | ... 147 |
| | References | ... 154 |
| VIII | SOME STUDIES ON Mn-OXIDE FILMS PREPARED BY CHEMICAL BATH TECHNIQUE | ... 158 |
| | 8.1 Introduction | ... 159 |
| | 8.2 Experimental | ... 159 |
| | 8.2.1 Experimental setup for Chemical Bath Technique | ... 159 |
| | 8.2.2 Procedure of Film Formation | ... 162 |
| | 8.2.3 Optimization of Preparative Parameters | ... 163 |
| | 8.3 Growth Mechanism of Mn-Oxide Films | ... 165 |
| | 8.4 Electrical Properties of Mn-Oxide Films | ... 166 |
| | 8.5 Optical Properties of Mn-Oxide Films | ... 170 |
| | References | ... 177 |
| IX | SUMMARY AND CONCLUSIONS | ... 178 |
