It is very grateful to feel the presence and blessings of god in the journey of opportunities. It is the pursuit of happiness and glory to acknowledge the people who are always there as a source of strength and patience for me.

I would like to express my deep and sincere gratitude towards my research guide, Dr. D.R. Shengule, Associate Professor and H.O.D. of the Department of Physics, Vivekanand Arts, Sardar Dalipsingh Commerce and Science College, Aurangabad. His enlightened approach, keen interest and constant encouragement gave me wings to fly me in right direction. His wide knowledge and logical thinking made me to think the things and go beyond the capabilities of eyes. His encouragement and personal guidance have provided a good basis for the present thesis.

I am deeply indebted to my guru, Prof. K. M. Jadhav, Former Head, Department of Physics, Dr. B.A.M.U., Aurangabad, who enlighten me with the latest exposure of research and development. His high values and simple living design my attitude towards my work and aim. He seems to have a magic power of understanding the needs and requirements of work and worker. I am pleasure to have his blessings, guidance and caring support from him. I am thankful to Prof. G. K. Bchile (Rtd.), Dept. of Physics, Dr. B.A.M.U., Aurangabad, support to make this thesis.
