

Preface

The present Ph.D. thesis on the Tribal Development in a Developing Society – A Study on the Tribals of Uttar Dinajpur and Jalpaiguri Districts tries to depict the various dimensions of Tribal Development in India. Attempt has been made to explore & explain the problems, strategies of the Government, measures undertaken and implementation of the programmes by the Governments of India and that of West Bengal. It is needless to emphasize the fact Tribal development is one of the most important task of Indian national development and nation building. Hence, there is no denying the fact that it is one of the most important areas of national development.

I would like to express my sincere gratitude to my supervisor Professor Manas Chakrabarty for his perennial support, guidance & encouragement throughout the writing of my thesis without whose constant guidance the thesis could not be completed.
