ACKNOWLEDGEMENT

Without a note of gratitude to all who helped me in these four years of academic journey, my thesis will be incomplete.

I sincerely thank my research supervisor, Dr. Gowri Priya Chidambaranathan, for her excellent support, advices and guidance throughout these years. She taught me a systematic approach in research and provided constructive comments in shaping this work. Her invaluable guidance and generosity enabled me to achieve this most significant feat of academia. Her support was essential for the progress of my work and development of my scientific interests. I also thank her for all the efforts in correction of this thesis by staying back after office hours.

I am extremely grateful to Prof. V.R. Muthukkaruppan, Advisor Research, Aravind Medical Research Foundation, who has been a constant source of inspiration and encouragement from my start as a fresh-faced graduate at AMRF through my progress as a senior Ph.D. student. His enthusiasm, inspiration, constant encouragement, valuable suggestions and assistance in numerous ways have made this Ph.D. possible.

I am obliged to Prof. K. Dharmalingam, Director Research, Aravind Medical Research Foundation, for his valuable guidance, support and encouragement. His in-depth knowledge suggestions, ideas and critical comments were extremely useful for the improvement of my research work.

I owe my deepest gratitude to Dr N.Venkatesh Prajna, Chief-Cornea Clinic, Aravind Eye Hospital, Madurai for his constant guidance, support and encouragement throughout the years of my Ph.D., as well as for giving me the freedom to explore new avenues. He motivated me and helped to bring best out of me and provided support at times when my work seems unmanageable.

I am thankful to Padma Shri Dr. P. Namperumalsamy, Emeritus Chairman, Aravind Eye Care System and Dr. G. Natchiar, Emeritus, Human Resource Director, Aravind Eye Care System, for providing me the opportunity to carry out the research work. His motivational talk

I thank Dr. Jeena Mascarenhas, Dr Jaya Devi Chidambaram, Dr. Shruti Lanjewar and Dr. Arun Kumar Panigrahi for their encouragement and providing all the clinical support, which made this thesis possible.
I am very thankful to Dr. M. Srinivasan, Medical Director, Sarvanan, manager and supporting staffs of Rotary Aravind International Eye Bank, Madurai, Tirunelveli and Coimbatore for their support in providing the donor eyes to carry out my research work.

I am greatly indebted to Dr. Jaya Maheshwari, who introduced me to proteomics and provided me with information whenever I approached. I am thankful to Nithya Rathnavel, Naveen Demonte Luke and Sujitha for their help in identification of proteins using mass spectrometry.

I thank all the medical officers, staffs in the cornea clinic for their help in clinical work and also thank Mrs Sumithra for technical help in using in vivo confocal microscope.

It is a pleasure to acknowledge the participants in this study, without their co-operation this study would not have been possible.

Sincere thanks are due to Dr. P. Sunderasan, Dr. S. Senthil Kumari, Dr. A. Vanniarajan, Dr Lalitha Prajna, Dr Santhi, Dr Bharanidharan, Dr Chithra Thangavel, Dr Vidya Rani and Dr Ram Prasad for their support and encouragement.

I acknowledge Defence Research Development Organization, India and Aravind Medical Research Foundation, host institute for the financial assistance.

I am thankful to administrators- Mrs. Anusuya, Mr. Parthasarathy, Mr. Subhash, and Mrs. Jiji for their administrative assistance and Mr Asirvatham for his instrumentation assistance.

I owe my deepest gratitude to Mr. Rajkumar, Photographer; Mr. Ramraj, Mrs. Gowri, Mrs. Deepa, DTP department for their help in making my thesis look beautiful by good representation of figures.

I thank Mr. Kirubanithi, Mrs. Kumaragurupari and other library staff members for providing the research articles, as and when needed, for my research.

selvam, Madhu bala, Madhu srinivasan and Elakiya for their support and friendship.

I leave a note of gratitude to lab sisters - Vigneswari, Anbumari, Muthu lakshmi, Pappathi, Renuka, Parameswari, Bala, Kalarani, Rekha, Oliyarasi, Indhumathi for providing incredible help in sample collection, technical assistance and making my research work easier with their help and kind cooperation.

All my friends, both in and out of the campus, were a constant source of relief. I leave a grateful note to Dr. Nagneeshwaran for his help in data anlaysis. I deeply thank Fayas, Tilak, Balu, Gowtham, Bibhuti, Suresh and Jakesh for their selfless love, friendship, care, prayers and support.

It is difficult to express my gratitude to my family, who were my strength and all time support. Without the prayer, support, patience, encouragement, love and care from my parents, I could not have finished my research. I can never repay the love and support showered by my sister, mia and my brother, sonu throughout my life. I am really thankful to my brother in-law, who supported me very well in time of need. Without them, I can’t succeed all the way. I thank them for being there through the good and bad times. Last but not the least, words fail me to express my love for my nephews - nunu and junu who make me happy and forget my worries with their naughtiness and laugh. I dedicate this work to them.

How will I express my gratitude to my Lord, my God....This life is not enough to thank Him for all the blessings, divine love and provision that He showers on me. He is always with me to fill me with new hope, to hold me with His victorious right hand and to strengthen me whenever I am weak. I exclaim your glory and love, O Lord.

Saumi Mathews
