ACKNOWLEDGMENT

In my ecstasy, I fumble for the words to adequately express my sincerest gratitude to Dr. Sagarmoy Lahari, Head of the Department, Department of Zoology, Govt. College, Suratgarh, for his scholarly guidance, constructive suggestions, perpetual encouragement, sustained interest and generous gesture shown during the course of investigation, as well as critically going through this manuscript.

I am indebted to Dr. Om Prakash Chahar, Assistant Professor, Department of Microbiology for his expert suggestions, guidance, valuable help and deep affection.

Grateful acknowledgement is referred to the Vikas W.S.P. Limited (Biopolymer industry) for extending working facilities as and when required during the study.

I recognize the staff of the Department of Quality Control, Vikas W.S.P. Limited. My sincere thanks are also to all lab staff, Department of Microbiology, JJT University.

I give my gratitude to my father Dr. H. K. Sharma, my mother Mrs. Dinesh Nandini who provided an endless source of advice and encouragement.

I express my heartfelt regards and love to my in-laws, brother, sister, kids and dear ones for their constant co-operation throughout this journey of success.

Last but not least, I owe a deep sense of gratitude to my better half Dr. Sanjay Pareek, whose moral encouragement, care and understanding enabled me to complete this mission successfully.
