ACKNOWLEDGEMENT

It is not possible to prepare a thesis without the assistance and encouragement of other people. This one is certainly no exception. On the very outset of this report, I would like to extend my sincere and heartfelt obligation towards all the personages who have helped me in this endeavor.

I am ineffably indebted to Dr. Shalini Chandra, Associate Professor, Department of Mathematics and Statistics, Banasthali University, Banasthali for conscientious guidance and encouragement to accomplish this assignment. The successful and timely completion of the work is due to her constant inspiration and constructive criticism. I am also thankful to Dr. Harish Chaudhary, Assistant Professor, Indian Institute of Technology, Delhi for his valuable co-guidance during the research work.

I am extremely thankful and pay my gratitude to Professor Aditya Shastri (Vice-Chancellor, Banasthali University) and Professor Dr. Sarla Pareek, Head, Department of Mathematics and Statistics, Banasthali University, Banasthali for her valuable guidance and support during my work at Banasthali University.

I also acknowledge with a deep sense of reverence, my gratitude towards my parents, who have always supported me morally during the tenure of the research programme.

Finally, I thank the one above all, the omnipresent God for giving me strength during the course of the research work.

Any omission in this brief acknowledgement does not mean lack of gratitude.
